Where Did We Descend From?

We are Old Souls who Descended in Duality for Our Learning

In this series of essays, I'd like to look at our descent into duality and ascent out of it into a higher dimension. Many subjects that have to do with Ascension, expected on or before Dec. 21, 2012, lie outside the perspective of this brief introduction to the subject.

I plan to produce more articles soon that look at topics like the career of dark humans, the mission of the evolved galactic and spirit beings here to mentor and assist us, and the impact on us of the incoming light. Here I intend just to give an overview.

My sources are channelled messages purporting to come from galactic and spirit teachers, ascended masters, angels, and their allies and colleagues. The source I regard as most credible and draw most heavily on is SaLuSa of Sirius, a teacher assigned to Earth by the Galactic Federation to assist us during these times. A second major source is Matthew Ward, an evolved spirit teacher most recently incarnated on Earth, who transitioned to the spirit planes in 1980.

Very few of us, in SaLuSa's words, know that we "are souls of Light." (1) Very few understand that "the higher vibrations are ... your natural home," he says. (2)

Apparently we decided to leave our home in the higher dimensions and descend into duality for the sake of what it would teach us.

As the ascended master, St. Germain, reveals: “You are truly magnificent Beings of Light, but of necessity have set aside those memories to enable you to concentrate on the challenge of duality.” (3) SaLuSa puts it slightly differently: “You are old souls who are just beginning to remember that you are of the Light.” (4)

We were not obliged to set out on this expedition. “The Creator did not force you into the cycle of duality,” SaLuSa informs us. (5) Instead, we “willingly and eagerly entered” the third dimension. (6)

It offered us an accelerated method of learning: “Although duality may strike you as extreme, it is the quickest way that you can progress” towards the goal of all life, which is the knowledge of our true divine identity. (7) We “knew what a hard test it would be.” (8) But we accepted the challenge.

In the course of our descent into duality, we forgot everything about our earlier existence and identified with the lower vibrations, SaLuSa tells us. “Darkness has surrounded your soul, and suppressed your Light until you have identified with the lower energies.” But all that is now changing. “Now you are in a very different period of time as the Light has returned to Earth.” Here he is referring to the light that exists within us which we are bringing forth. “It will continue to increase exponentially, until it joins up with the incoming energies that are being beamed to you.” (9)

This third dimension of duality was created for us to experience. It was never intended to be our permanent home, SaLuSa says.

“You have been living in a reality that has been created by you, and served its purpose by fulfilling your desires. It was not however meant to be permanent, and would in any event have changed in response to the higher energies.

“Duality such as you have experienced it is not to continue beyond the end of the cycle, and that will also include the astral dimensions.” (10)

Just to ensure our clarity, when SaLuSa says “that will also include the astral dimensions,” he’s referring to the realms we transition to after the death of the physical body. Duality will not continue in this physical dimension and it will not continue in those spiritual dimensions. All will transition to a higher plane of existence.

We Will Ascend Again at the End of This Cycle

We’ve learned much through our stay in the third dimension, he assures us.

“You have learnt much through the cycle of duality, and it has served its purpose in bringing you to understand the opposites and still rise up.

“You are clearly spiritually stronger than when you started your epic journey through the darkness and lack of Light. It is in fact quite remarkable that given the loss of your true identity you have still managed to find your way back.” (11)

Now we prepare to return to the higher vibrations by a process that has come to be known as “Ascension,” which will be the focus of this series of articles.

“Today [we] stand at the door of Ascension. It is truly a wonderful achievement and you are to be applauded for it.” (12)

“Ascension will lift you up to levels that you passed through on your downward path into duality.” (13)

However, SaLuSa tells us, we “never doubted the promise that you would be lifted up when the end time came.” (14) Once we leave duality we will choose what to experience next.

“All souls will make a freewill choice as to where their journeys will take them next. Your subconscious memories of having come from the higher dimensions

will draw you back to them. You will instinctively feel that it is where your real home lies.” (15)

From our time in duality, SaLuSa says, “experience is what you will take back to the higher realms, and many [others] will benefit from it.” (16) In the immediate future: “Your expansion of consciousness will have become so great, that you will act as co-creators of new worlds, and join the ranks of those with super consciousness.” (17)

In the far distant future, according to SaLuSa’s colleague, Ag-Agria of Sirius, we will take our places on the same councils which today determine our future: “One day many of you shall be seated on the Councils that preside over the Universe, and in your greatness serve God directly. However, that is a long way off but indicates your unlimited potential to rise to the highest levels.” (18)

In the next part of this series, we’ll look at Ascension itself and the Divine Plan it fits into.

What is Ascension?

On the Divine Plan

Before looking at what Ascension is, I'd like to look at its derivation in the Divine Plan for life.

SaLuSa tells us that “spiritual matters are highly organised.” While “you are all acting out your roles for the benefit of the whole, and a game it may be,” it is “one that is deadly serious.” The object of the game is “that as many souls as possible move into the Light.” The efforts of our galactic and spirit teachers are aimed at “getting you to awaken to your true selves.” (1)

SaLuSa tells us there is a “grand plan for Man.” It is “perfect in its concept and whatever path you take, it will always lead to your goal.” (2) This grand plan is “being worked out, supported by great Beings of Light.” (3)

What is its goal? He tells us that “the Divine Plan [has been devised] to release you from the lower vibrations and end the cycle whilst giving every soul the opportunity to rise up.” (4)

“Because it was agreed beforehand,” SaLuSa reveals, “immense help is being given to lift you up again.” (5) “Gradually” he confirms, “the awakening process has started to yield results.” (6)

Although it is possible for an individual soul to ascend at any given time, SaluSa tells us, “the difference now is that you are benefiting because of the Divine decree that this Universe shall lift up and enter a new area in the Cosmos.” (7) “Release your fears,” he advises us, “and trust in the Almighty Creator and the divine decree that offers you the opportunity to permanently leave duality.” (8)

Not only do we hear this from galactic sources, but from spiritual sources as well, such as the spirit teacher Saul, who says: “It is your Father’s Will and yours that you make this move back into His glorious Presence where you belong and where everlasting bliss awaits you.” (9)

Or planetary logos, Sanat Kumara, who explains:

“The intention of the Plan has always been for you to return to Source. The Plan was never for you to fall away from the light into utter darkness. The reversal of the downfall has been created and now blessed ones, you are returning to your place in the light of your eternal God Selves.” (10)

Once the divine decree is given, according to Matthew Ward, it is passed on to “the highest universal council members,” who then take the next step. They “long ago conceived and crafted the Golden Age’s master plan.” (11)

“The plan included millions and millions of souls from advanced civilizations whose essential assistance on, within and above Earth assured that she not only

would survive death throes, but would be restored to her original paradise self, where all her people live in harmony with each other and all of Nature.” (12)

I don't plan to extensively cover here who has come to assist us with Ascension. That is a large enough topic that I intend to leave it for a separate series. At present, I simply want to identify that other developed beings are here for us.

At great personal cost, evolved “souls of Light have joined [us] on Earth” with the result that “the vibrations have slowly been lifted,”

SaLuSa tells us. They come as a result of the operation of the natural laws, he says.

“The Creator has made the Universal Laws and they allow for help to come to you from all over the Universe. Your success in grounding the Light upon Earth has led to higher vibrations attracting the attention of other Beings of Light.” (13)

Where do they come from? He reveals:

“They have come from various civilisations that have long moved in to the Light, and prepared to experience the darkness that you have dropped into. It has been what you call “a rude awakening” to leave the uplifting energies and harmony that exists on their home planets. That is in service to you as fellow travellers seeking your evolutionary path.” (14)

On Ascension Itself

SaLuSa tells us that “Ascension is quite a natural occurrence covered by the Laws of the Universe.” (15) The succession of cycles culminating in Ascension is a normal part of life.

“What is more natural than one cycle ending and a new one beginning, as it is in the nature of all changes that are planned for the evolution of your Universe. They are not chance happenings but part of your inevitable journey back to the Source.” (16)

SaLuSa explains that the process of Ascension out of a lower cycle into a higher has been long known and predicted.

“It was known that those who had become of the Light would rise up from the Earth [at this time]. Such events have occurred on a regular basis and sometimes even during a cycle, such as the disappearance of the Mayan people. (17)

“The coming Ascension has been the subject of many teachings and messages for a very long time, as the end times have been clearly defined since this cycle began so long ago. It is the whole purpose of everything that has been taking place, and the plan has been played out so that you have gained the maximum benefit from it.” (18)

However, that having been said, Ascension “only comes up once in every solar cycle,” he tells us. (19) a cycle consisting of 26,000 years. (20)

An angelic group called “the Nine” describe what Ascension consists of.

“The Ascension of the Earth is the raising of the electro-magnetic frequencies that surround her and that she exists within. It is a freeing from a static place into a place of Growth. It is natural evolution that eventually occurs within all consciousness structures be they Planetary, Humanoid or Otherwise.” (21)

Ascension, in the words of the ascended master, St. Germain, will result in “a quantum leap of consciousness that will be all encompassing.” (22)

According to the Group, speaking through Steve Rother, everything on the planet is adjusting to a higher vibration: “The Earth is changing to house a higher vibration not only of herself, but of humans, animals and every other part of it. The entire game is changing to begin a new game at a higher vibration.” (23)

In the next part of this series, we’ll look at the Golden Age that will open up after Ascension.

What is the Golden Age?

We Stand on the Threshold of a Golden Age

“You stand poised at the threshold of the new Golden Age for mankind,” says spirit teacher Saul. (1) In that era, humanity will “move into full consciousness.” “It is the state toward which you have been working for a very long period of Earth time, and through many Earth lifetimes.

He describes what we’ll experience then.

“The moment of fulfillment of God’s promise to humanity of a new Golden Age is shortly to dawn. When it does your joy will be stunning for you, as understanding of its meaning floods into your awareness — like the depths of winter changing instantly into the lushness of full summer.

“Your thoughts, your imaginings, even your dreams have given you not the smallest inkling of what is about to occur. Rest assured that the wonder of this approaching event leaves absolutely no room for even the slightest sense of doubt or disenchantment.” (2)

Saul is not alone in making this prediction. Here is Matthew Ward also on the same subject.

“It is the collective light on the planet that is ushering your world into the Golden Age!” (3)

“The unstoppable intensity of the light is propelling Earth ever closer to the Golden Age, where no darkness of any kind can exist.” (4)

Those people who can tap into the collective consciousness, Matthew says, “are accurately seeing what we have described in Earth’s Golden Age — the loving, peaceful life of all peoples, the restoration of your planet’s health and beauty, the harmonious co-existence of humankind with all of Nature.”

“In this wondrous Earth that is on the near horizon and already created in the continuum, there is no fear, no violence or greed or bigotry or any other divisiveness that thrives in a third density world.” (5)

SaLuSa holds the same vision.

“See the rainbow and the pot of gold, because you are truly entering a Golden Age that will be so beautiful and uplifting we can hardly put it into words. Even in your wildest dreams you have not touched upon the feeling of the wonderful energies that you will experience. They absolutely ensoul you with a great Love and Light, and that is where you once came from eons of time ago.” (6)

It is “the end of the illusion, and the suffering it engenders,” Saul tells us. “Your happiness and exhilaration in the joy of being alive when you finally awaken from this deranged and stifling nightmare will overwhelm you.” (7)

It is part of “an ongoing process,” according to SaLuSa. (8) We may ascend on this occasion, but we will ascend to higher and higher levels of existence on other occasions, until at last we reach a point where we have ceased to exist as an entity separate in some respects from God and have merged with God in all respects again.

What Ascension is Not

Ascension is not an upward movement, Matthew reminds us. To use the word “Ascension” is to use a metaphor.

“Although this movement is into planes of successively lighter energy, not into progressively higher elevations such as climbing a stepladder or a mountain, souls’ growth in conscious awareness and spiritual clarity can be thought of as upward. Thus ascension is the most descriptive term for this advancement.” (9)

Thus it has, Matthew Ward says, nothing whatsoever to do with a physical rising into the sky, “nothing ... to do with the ‘raptures’ of religion, so please do not try to fit that concept into the universal truth. Ascension is the process of Earth leaving third density and traveling through fourth on to fifth.” (10)

It is not a spiritual judgment process, as Matthew informs us.

“There is no seat of judgment or arbitrary selection of which humans can ascend and which cannot — it is strictly a matter of science and souls’ own choices. Light changes third density’s carbon-based cellular structure to the crystalline form that lets bodies survive in the higher frequencies, or vibrations, of fourth density and beyond.

“That is why persons who choose to live in the light can ascend with Earth and those who choose to cling to their dark ways cannot. After a time in spirit, souls in the latter group will incarnate in a world that corresponds to their Earth lifetime energy registration and have more opportunities to ‘see the light.’” (11)

It will be, the galactic, SaLuSa of Sirius, says, “the most important step you have taken since the last cycle began, and it is why so many Beings accompany you in the last stages of your preparations.” (12)

When we finally do ascend,” he says, “you may be absolutely certain that you have succeeded in overcoming duality, and you will truly be looked upon as a Master.” (13)

The fact of ascension, he adds, “is only known to a relatively small percentage of Humankind. Many more have heard about it but it has no real meaning for them. In fact it is often denied as the fanciful notions of dreamers.”

“It is most important that every soul understands what Ascension stands for, and that each one is able to make an inspired choice.

“You who are already aware can help them understand what a wonderful process it is, one that is intended to lift you up to levels that are more in line with your true selves.” (14)

The next part in this series examines what makes this Ascension a unique event.

What Makes This Ascension Unique?

Ascension will occur everywhere.

Let's look at three things that make this Ascension unique. One is that it's a mass Ascension in which everyone on Earth has the potential to participate. The second is that it will be happening everywhere in the universe. And the third is that it will see us ascend, not after death, but before, in our physical bodies.

This will be a Mass Ascension

SaLuSa tells us that, unlike other Ascensions which were made by qualified individuals after many lives of arduous spiritual practice, this time everyone who wishes can choose to ascend. Mere choice alone is a necessary but not a sufficient condition for Ascension. To ascend, a person must also have assimilated enough light, as we shall see later.

“What is special about this time is that the whole of Humanity has been given that choice. ... By the end of the cycle it will be possible to say, that everyone had at some time been given the opportunity to take a new path out of duality.” (1)

He reveals that this feature of this Ascension is the result of a special dispensation.

“Any individual soul that is ready can ascend. As we have explained before, this time every soul is being offered the chance to ascend, because it is a special dispensation to allow for a mass Ascension.” (2)

It is up to us whether we exercise our choice, he says: “The beauty of the Light is available to everyone and as always it remains your choice whether to accept it or not.” (3)

Diane of Sirius reveals that the masterful souls who have gathered to assist us cheer when each soul chooses it.

“Everyone rejoices when a single soul reaches up and achieves an evolutionary goal that takes one out of duality. As you know by now it does not come easily which is why the coming unique opportunity ... is one that must be made known to all before the end of this cycle.

“Those of you who have been seeking have been directed and guided towards it, and it becomes your absolute choice as to whether you seize the opportunity.” (4)

The Entire Universe will Ascend

The second feature of this Ascension is that, not only is it occurring for the whole of Earth, but also everywhere in our universe. Atmos reminds us that the plan is not affecting Earth alone.

“The plan for your Ascension is contained within the many cycles that are part of the orderly function of the Universe. It is not a process confined to Earth or just your Solar System and is happening by divine decree.” (5)

SaLuSa tells us that “the Divine decree [is] that this Universe shall lift up, and enter a new area in the Cosmos.” (6) On another occasion, SaLuSa refers to “the total

upliftment of the Universe” and tells us that we “are as important as any other part of the plan.” (7) The plan covers “millions of other souls” besides terrestrials. (8)

Again, we hear this message also from spirit sources as well as galactic. Here is Archangel Michael: “It is a time of mass ascension, for all the planets, solar systems and galaxies within this universe are actively involved in an ascension process.” (9)

And here is spirit teacher Matthew Ward, who reveals more of God’s desire in formulating the plan:

“The changes taking place on Earth—overcoming the dark control and opting to live in the light—are not exclusive to your world or your solar system. Perhaps not even to this universe, but we don’t know that. What we do know is that these changes are universal in scope. There are places of such love and glory that you cannot imagine them, and likewise places of intense darkness where the masculine warrior and ruthless natures are dominant.

“God’s desire is to bring this universe completely within the light so the opposites are reconciled. But as you well know, free will reigns, and those who cling to dark ways may do so until the brilliance of light, the radiance of love, is so powerful that they desire to live within that.” (10)

We Will Ascend in Our Physical Bodies

A third factor that makes this Ascension unique is that we will ascend with our physical bodies, whereas in the past, to ascend, one has had to leave the physical body behind, as SaLuSa tells us. “This time [i.e., this Ascension] you ascend with your physical body. It is not therefore death of your old one, but simply a change that enables you to use it in a higher vibration.” (11)

To allow the physical body to survive in the higher vibrations, its structure is being changed by the incoming light from a carbon base to a crystalline base.

“As many of you are now aware this [Ascension] is unique, as you take your physical body with you. Not as your existing carbon based body, but one that has become crystalline and can function in the 5th. Dimension. One that has become lighter, and has moved into a near perfect expression of itself.” (12)

“Also it is unique because you will ascend in a physical body, that has changed its body cells to make it suitable for life in the higher dimensions.” (13)

“The key factor where your Ascension is concerned [is that] you cannot reach it other than being of a similar vibration of Light.” (14)

Like SaLuSa, Matthew Ward also tells us that our absorption of light changes our bodies from a carbon base to a crystalline base, which allows us to survive in the higher dimensions.

“Ascension is possible for all who have absorbed the light, and the souls who accompany Earth will do so in their physical bodies.” (15)

“It would be good to also mention again that the light that is absorbed by receptive souls is changing their cells into a crystalline structure for physical survival in the higher vibrational levels as well as increasing spiritual clarity and thus soul evolution. (16)

In the course of Ascension, we can expect our bodies to return to a state of perfect health, Matthew says.

“If bodies lack organs or limbs or have physical, emotional or mental disorders, farther along the ascension pathway there will be healing of all disease and replacement of missing parts until the bodies are perfected and mental and emotional health is sound.

“In fourth density the bodies of aged persons will become youthful and live healthfully much longer than your current life expectancy, and life spans in fifth density can be tenfold or more than yours are now. (17)

Another way to speak about this Ascension is to say that it involves transforming our physical bodies into light, as Archangel Michael explains: “Ascension is when the soul transforms its physical body into light and steps into the next level of consciousness; it is the aim of every soul on the earth.” (18)

In the next part of this series, we'll consider where the light is coming from that is causing Ascension.

What is the Nature of the Light Uplifting Earth?

Increasing Light Causes Ascension

SaLuSa made a number of interesting comments recently that demonstrate that the Light forces who are working to bring Ascension to this planet are doing so by increasing the light quotients hitting the planet.

He made his comments specifically in light of the popular revolt that has hit North Africa at this time (Feb. 10, 2011) and explains that increasing light is behind the dissent. He said:

“With our presence even if you are not fully aware of what we are doing, the energies around Earth are playing upon the consciousness of many who see it is their duty to take action.” (1)

“The awakening has reached people who have no direct interest or knowledge of Ascension, yet their senses tell them what has been wrong for a long time, and if Man is to go forward changes must take place. Suddenly the group consciousness is expanding and moving into the Light, which is inspiring people to achieve greater things for the good of all.” (2)

The Arcturian Group warned us on Jan. 9, 2011 that increasing light was causing things to look as if they were getting worse.

“It is a time for rejoicing because in spite of what you are hearing and seeing, the light is getting brighter. This then in turn, exposes those corners that heretofore have been dark and unseen. This is important to understand because although it seems as if things are getting worse they are not, dear ones; not worse, just exposed.” (3)

In physical terms SaLuSa explained:

“Each day you get nearer to the end of this cycle the energies are rapidly lifting you up. A whole series of inputs that are carefully planned to do it, are changing the structure of your body cells as they become crystalline. It will have been completed by the time you ascend. You will then have become a Being of a higher consciousness, ready to move into the 5th. Dimension of beauty and harmony unlike anything you have experienced upon Earth.” (4)

The week prior to this message, SaLuSa told us: “In a short time your consciousness is going to grow quite rapidly, and it will be due to the uplifting energies reaching your Planet.” (5)

What are these “uplifting energies reaching your Planet” that SaLuSa refers to?

The sources I examine here say that we are being sent a great deal of energy in the form of love and light to accomplish a planetary transformation and migration on or before Dec. 21, 2012, which they generally refer to as “Ascension.”

To understand the importance of the light returning to Earth we need to understand, as SaLuSa tells us, that “all is energy in its various light forms, and that everything has levels of consciousness. That knowledge is perhaps what has been lacking on Earth.”

(6) As the Arcturian Group reminds us: “You are beings of light in your true essence.”

(7)

I've said in many articles already located to this site that enlightenment is the purpose of life. Enlightenment is the realization of our true identity as God (or I could have said as Light) which comes about as the result of our being given and assimilating light in the experience generally called "enlightenment."

In the following passages, SaLuSa refers to that experience:

"You are in strange times to what you normally experience, but as the veil is lifted the Light will illuminate your mind with the truth of who you really are. In reality you are great Beings of Light, who stepped down into the lower realms for no other reason than that you wanted to expand your evolutionary experiences." (8)

"One day you will suddenly realise that life has to give you more than it does, and once you see the Light your consciousness opens up. For seekers of the truth there has never been a better time, as so many channels have been opened up to cater for everyone." (9)

"The great awakening continues to take place, and many souls are opening themselves to enlightenment and becoming one with those who have found the Light." (10)

On another occasion, he says that "now the Light shines out and every heart can draw it in, and open their souls to the reality of who you are and your purpose in life." (11)

Ascension is not the end of enlightenment nor are the ascended beings who are helping us lift up at the end of their journey, as the Arcturian Group makes clear: "You are not expected to suddenly become fully illumined, for that is the journey of enlightenment. We too are making this same journey and are simply a little further ahead. This is evolution and this is what being is all about." (12)

As I've discussed before, spiritual evolution goes on and on, in a virtually endless journey from God back to God again.

What is the Nature of This Light?

What is the nature of this light? Ela of Arcturus tells us that its nature is love. “What is this energy that is bringing about the changes; it is what has been referred to as the glue of the Universe and it is the higher vibration that you call Love. It permeates All That Is, and that which you call evil or negative is due to the lack of that energy.” (13)

It may be hard for us to imagine how something like light can also be called love, but if we think in terms of other things we can see that a phenomenon can be known in terms of more than one quality. For instance, honey is sweet and liquid. Marble is hard and white. Light shines and is experienced as love. The sages who have experienced the inner Light tell us this is so or demonstrate it.

Here for instance is J. Krishnamurti bearing witness to the love that comes with light:

“I have seen the Light. I have touched compassion which heals all sorrow and suffering.... Love in all its glory has intoxicated my heart; my heart can never be closed. I have drunk at the fountain of Joy and eternal Beauty. I am God-intoxicated.” (14)

This description of Sri Ramakrishna in samadhi implies it:

“Spellbound, they looked on a great yogi, his face lighted with a divine smile, his countenance radiating love, his eyes sparkling with joy — a man who had renounced all for God and who knew nothing but God. Unceasing words of wisdom flowed from his lips.” (15)

This light of love, SaLuSa says, “is ever increasing upon Earth.” (16) “The Light has truly broken through and will continue to grow more powerful.” (17) This increase “is a very good sign of the progress [towards Ascension] being made. Out of the darkness a grand Light beams out and reaches all around the Earth.” (18)

Our sources tell us what awaits us as a result of the increasing light. St. Germain says: “The lower vibrations are heavy and have kept you in a state of unknowing of your true reality, but now that is rapidly changing. The glory of being in the Light and realising your true potential far exceeds any dreams you have had of raising your selves up.” (19)

And Saul tells us that “your times of sorrow, pain, and confrontational disharmony are almost at an end, as God’s divine light and grace washes over the planet, healing, repairing, and renewing, so that the pristine beauty in which all was created may be gloriously re-established.” (20)

In our next article in this series, we’ll consider where this light is being beamed from.

Where is This Light Coming From?

Where is This Light Coming From?

Where is this Ascension light coming from and how long has it been coming to Earth?

Spirit teacher Matthew Ward tells us that it is coming from many extraterrestrial sources. “If only you could realize the vastness of the light coming from countless sources in the universe, your hearts would be uplifted immeasurably to hasten the moment when darkness succumbs to the brilliance, and love permeates Earth.” (1)

On another occasion, he describes its origin as “myriad extraterrestrial sources.” (2) In a third message, he refers to it as “the ever-increasing light beaming from afar,” which is “adding to that which you are generating on the planet.” (3)

SaLuSa agrees with Matthew and says: “New energies permeate the Earth, that come from outside your solar system. These are behind the personal changes you are experiencing, and are becoming more powerful each day.” (4)

Elsewhere, SaLuSa tells us that the light originates with great beings. He reveals that “many higher Beings are ... focusing their Light upon Earth.” (5) He explains that: “There is so much help coming to you from many quarters, as the Universe follows the

events upon Earth very closely. Your evolution is viewed as being most important, and a successful outcome is essential to the future of Mankind.” (6)

SaLuSa’s colleague, Ker-On of Venus, agrees that light “is beamed to Earth from many different sources. The Universe is playing its part in ensuring your successful completion of this cycle, and continues to send ever-increasingly powerful rays of Light.” (7)

Some sources identify a Sun at the center of the galaxy, others a black hole, which the Mayans referred to as Hunab Ku, as a major of these uplifting vibrations of light and love. For instance the ascended master St. Germain says:

“Behind everything that occurs is the motivating force of Light that comes from your Central Sun. The God Force is being given to you at such levels as you can accommodate, and your power is increasing tenfold. I see the wonderful Light that encircles the Earth, and it grows faster than ever as more souls respond to its call.” (8)

Intuitive David Wilcock refers to this energy source as a “galactic wave”: “The galactic wave specifically seems to be part of an intelligent design that energetically pushes us to the next level.” (9)

The spirit teacher called Saul describes this light energy in the following manner.

“Planet Earth is enveloped and wrapped in the most glorious cloud of divine Energy, which is revitalizing and invigorating her and all the life forms she supports. It is most beautiful and awe-inspiring to behold. It shimmers and shines with a brilliant intensity of constantly shifting colors.” (10)

All of us are bathed in it, say the light beings speaking through Phoebe Lauren.

“This new energy that is coming to earth now is stronger and purer than any which has come before. ... This is an energy of pure light and pure love. (11)

SaLuSa tells us that the light has been increasing for many decades now.

“For over a century the amount of Light being brought to bear on you has increased tenfold, and has been instrumental in lifting many of you up. This is in accordance with the Divine Plan to release you from the lower vibrations, and end the cycle whilst giving every soul the opportunity to rise up. (12)

The Group, speaking through Steve Rother, explains that the space nations that gave birth to the human race have returned to Earth to assist us through this period: “All eyes in the universe are upon planet Earth right now. The six parental races that helped you form these physical bodies that you hold right now are back again to help. The interesting part is that they are fighting over who can help the most.” (13)

For us this is a great opportunity, Diane of Sirius says.

“Now is your opportunity to awaken to your true potential, as the Light is being beamed to Earth.” (14)

“The energies you are now bringing into focus are the means of your upliftment and they will continue for quite some time.” (15)

SaLuSa also attempts to make us aware of the opportunity before us: “The Earth [is] becoming a Planet of Light. The dazzling points of Light coalesce. ... So it shall continue until the lower vibrations hardly exist, and then you will be near to the end time and Ascension.” (16)

Ker-On of Venus describes its significance and tells us how to take advantage of it.

“What many thought would never come in their lifetime has suddenly arrived: The opening of a new pathway that is glowing with a Golden Light that is going to become more intense, one that beckons all who have desired the opportunity to ascend and requires only your intent to live the remainder of your life to your very highest understanding of what it means.” (17)

In our next article in this series, we'll look at what life may be like in the higher dimensions towards which we're headed. (I can't guarantee I'll be able to post the next part soon. The worldwide protests have intervened and take precedence.)
