

Let's Talk 2012 and Beyond: Summary of 7-31-2012 Show with Hugh-Man and Scott Mowry

Posted by Dave Schmidt

Let's Talk 2012 and Beyond: Radio **Show Summary from 7-31-12 with Guests Hugh-Man and Scott Mowry**

Dave: Each week's program will now have a written summary. This is a new service and we hope it adds to your enjoyment. Included at the beginning of each paragraph below is the minute and second mark of the program's archived recording. This should allow the listener to advance to a specific section of the two-hour program, without having to listen through the entire two hours. Now you can scan the program summary and advance to your favorite part. Thanks to Janice Collins for the written summary!

Guests: Hugh-Man and Scott Mowry Hosts: Dave Schmidt and Sierra Neblina

This week Dave and Sierra discussed the UFO at the Olympic Opening Ceremony and talked with their surprise radio guest, Hugh-Man; and later, with Scott Mowry

05:37 – Intro by Sierra and discussion with Dave regarding the UFO at Olympic Opening Ceremony and the circumstances at and around the Olympic stadium.

09:00 – Sierra mentioned her attendance at an emergency meeting with the Galactics on a starship last Friday regarding some government officials on earth missing their promised timelines regarding disclosure and financial and other information to be released to the public. Due to planetary alignments and opening portals earth's people needed to be given a fair chance to expand their consciousness in preparation for ascension, which is being impeded by the current state of untruths being fed to the public. An ultimatum was put forth to earth officials to act on their agreements, or the Olympics would be used to begin disclosure by the Galactics themselves. The UFO over the Olympics was a “warning shot” by the Galactics.

15:40 – Dave and Sierra further discussed the specifics of the UFO at Olympics and countered the news item that implied the UFO was the Goodyear blimp, which was at a different place than the UFO. The opinions of other knowledgeable people on the matter, was discussed. This included confirmations by SaLuSa and Archangel Michael that the UFO at Olympics was a galactic ship.

22:33 – Dave introduced Hugh-Man who called in to talk. He spoke of telepathic conversations with “Lady Z”, a Pleiadian who confirmed to him that Jamie Diamond was in containment and a restitution program. She also confirmed that John Roberts in containment. Also “Lady Z” spoke to him about Drake's questionable authenticity, Wanderer of the Skies being at galactic meetings, and other matters. He spoke about getting “bleeding through”, and knowledge of conversations at various meetings among the Galactics. He learned that he would be involved in TV talk programs after disclosure and there would be a program like Candid Camera. This would involve a ‘cosmic candid camera’ technology, whereby the Galactics can film and record anything occurring on earth - including the private meetings of the cabal, banking, government, everything. The evidence at any trials will be overwhelming and graphic. Although there have been delays, he predicted that December and January would be very busy

months. He also spoke of working at night on preparations for 'space amusement parks' to be put in place.

39:30 – Dave told Hugh-Man about a dream he had in January about spaceships appearing in the sky, one of which landed near him and the occupants invited him for a ride and so he could be with them and have his energy upgraded. Hugh-Man said that Dave and Sierra and others would be wayshowers. Dave spoke again about the space amusement parks and being in a 5D body in the near future. Regarding the dates of disclosures, Hugh-Man said that there were designated people whose life mission was to announce the dates, but that they were falling down on the job. When the time comes, the 'cosmic candid camera' programs will be introduced from one of the Galactics' communications technology ships, and that he, Hugh-Man would be closely involved and the galactic will be with him when he is interviewed on currently well known TV programs.

48:45 – Hugh-Man was told by his contacts that he was a Venusian. He talked about his many months of getting acclimated to that fact and also the fact that he was an elder of the galaxy and Galactic Federation and how he was bi-located to Syria and was working with Archangel Michael on peace negotiations there. He spoke of his current mission to inspire starseeds everywhere and his work on the space amusement park,s which will be located around the world.

59:33 – Dave began by introducing Scott Mowry, with jokes and serious talk with Sierra about being filmed and recorded by the Galactics, as discussed by Hugh-Man. Scott spoke about its relationship to the Akashic records, as revealed by Edgar Cayce.

1:02:32 – Scott described his experience as a filmmaker, researcher and speaker, and one of the starseeds among the waves of souls who came here to aid in the shift of consciousness on earth.

1:06.98 – Scott spoke about a guy in Wales who demanded to be paid on a bet he made with London bookmakers that there would be a UFO at the Olympic Opening Ceremony. He agreed that it was a UFO there. He spoke of a timeline for disclosure

where it would become obvious that ETs are present and UFOs are real based on overwhelming evidence which is accelerating by the day. He spoke of a “great revealing” that is going on today where the veils between the dimensions are melting and that his career revolves around communicating these things. He spoke of a golden age coming, one that we already have a foot into.

1:15:03 – Asked about his take on how ‘the shift’ would be unfolding, Scott noted that the Mayans did not put a lot of importance on the date 12-21-12 and that ‘the shift’ could happen before or after this date. Scott said 10-28-11 was of significance to him because that date was the completion date of the “9 levels of consciousness” and entering the age of enlightenment. Our minds are becoming more powerful each day. All kinds of people are becoming enlightened and every enlightened person affects 100,000 other people around them. The critical mass is 70,000 enlightened persons- which gives us our 7 billion population total ($70,000 \times 100,000$) . Scott said there are currently around 50,000 enlightened humans. He expects that the critical mass of 70,000 will be achieved before the end of the year.

1:19:36 – Scott spoke of the revealing of the corruption and control and that this would be continuing until the end of the year, when significant developments will occur. He talked about the meaning of the “three days of darkness” with Dave. Scott pointed out that time itself is an illusion. He said that the Gregorian calendar was a weapon of mass destruction because it alters human consciousness by taking the concept of time away from nature, and into a state of chaos. It took the focus from an inward focus to outward one. He described how past, present, and future are one and the Mayans call this age the time of “no time”. He urged people to focus on the present moment – the only place of power. He spoke of how we could be having parallel lives at the same instant. Our attitudes and beliefs shape reality and described experiments in quantum physics that show this.

1:13.39 – Sierra spoke of how people need to understand how thoughts create reality and how this is amplified at this time; the importance of gratitude, and the increasing energy happening now. Scott continued along this line and spoke of the importance of

focusing on the positive, and the importance of forgiveness and gratitude and especially Love.

1:39:00 – Sierra began taking questions from listeners. The first question was about the critical mass of enlightened people. Scott repeated that with 70,000 enlightened people we will achieve critical mass. Scott answered the second question and he defined “enlightenment” as a transformation within the brain where there is a consciousness of being connected with the whole universe – a state of bliss and loss of personal identity with no barrier to the Divine. He described the physiological component of this whereby the two hemispheres of the brain combine into one. Scott also read from the statistics regarding how many are now enlightened, in the presence, etc.

1:46:20 – A caller, Mark, described how he asked for a sign that things were happening then he had a vision/dream of the sky being full of galactic ships of all kinds and how the children reacted with such joy. He was invited with a child on board the ship with such joy and humor on the part of the Galactics. Sierra pointed out that he was left empowered by the experience and aided in his preparation for Ascension.

1:55:23 – A caller, Erika, spoke of crystals that vibrated and a reaction to being in a time loop. She plotted the location where she is and then plotted the location of the Olympics. The angles of the triangles of the two matched which is rare, and the geometric shapes that showed up were significant. She asked Sierra about the geometric shapes of the crop circles. Scott commented about sacred geometry and the patterns in the crop circles. He sees them as billboards from the star nations that trigger ancient buried memories within us.

2:05:39 – A caller, Tristan, asked if the UFOs are good. Dave, Scott and Sierra reassured the caller that the UFOs and the ETs are beneficial, loving, filled with love for us, our ancestors, etc. She was advised to go to [The 2012 Scenario.com](http://The2012Scenario.com) and read about them.
