What is the collective consciousness?

The collective consciousness [is] that energy mass of countless thoughts, feelings and deeds that steers activity in Earth’s field of potential and determines what happens in your world. (Matthew's Message, Oct. 19, 2014.)

The collective consciousness ... comprises the energy put forth not only by humans, but also every other life form on the planet. (Matthew's Message, October 19, 2014.)

[Earth’s] residents' journeys depends upon the choices each makes, and the cumulative choices make up the collective consciousness. (Matthew's Message, January 19, 2013.)

The collective consciousness is the creative force of a civilization. (Matthew's Message, Dec. 29, 2012.)

It is the collective consciousness that manifests everything that exists on Earth. (Matthew's Message, Jan. 8, 2017.)

[Thought] forms are created by every being's thoughts, feelings and actions, and collectively those determine a civilization's density, or spiritual and conscious evolvment status. (Matthew's Message, Aug. 3, 2014.)

The major component of any reality is the power of the collective. A reality is formed by consciousness. This collective energy is "set" according to the primary beliefs you hold. Within it, you function on an individual, and a collective, basis. But it is the latter that is most crucial at this moment.

Each unit within the collective is affected by the actions of every other unit, creating an interconnected physical whole: a shared and total awareness. Spiritual and physical consciousnesses are acutely interconnected. ... These communal interactions weave the tapestry of the given reality. (Sheldan Nidle, July 24, 2018.)

How does it work?

Energy is neutral. It is the thought forms that get attached to energy streamers that are positive—with light—or negative—without light. (Matthew's Message, Aug 3, 2014.)

The overall energy investment ... comprises the thoughts and feelings of the populace [and] produce[s] countless streamers. They are darting about in the collective consciousness. To bring order out of

that chaos, the energy coalesce[s] into various scenarios that represent the total investment and each has the potential to unblock the field. (Matthew's Message, Aug. 19, 2016.)

Energy is neutral and without reasoning capacity. It is your thoughts and feelings that attach themselves to energy streamers that give them direction and forcefulness.

As the collective consciousness starts churning with fearful thoughts and feelings about such forecasts, the possibility of occurrence becomes a probability.

Even though our universal family stands at the ready to intervene in situations where they are authorized to do so - reducing the harmful effects desired by your weather manipulators always is allowed - please be ever mindful that the impartial law of attraction is constantly operating and is powerful. (Matthew's Message, Sept. 11, 2010.)

Since all Life is interconnected, when we lift into a higher level of consciousness or transmute an aspect of our human consciousness that no longer serves our highest good, we also lift and transmute the collective consciousness and energies of all Humanity as well. (Matthew's Message, Feb. 14, 2010.)

Just as each of you are going through your own transitions, so too is your collective consciousness. The things that were previously allowed to take place on your world will soon become 'things' of the past. ("Guides: A Whole New World - A Look at What's to Come," channeled by Taryn Crimi, September 9, 2014, at <http://www.angelic-guides.com>.)

Economic turmoil has resulted in deeper awareness of blessings and feelings of gratitude; compassion in greater measure for peoples who are deprived of bare necessities and freedoms; sharing with the needy instead of with family and friends who have sufficient; and growing numbers of folks with heartfelt commitments to work toward

the well being of all.

Every single thought, feeling and deed related to these kinds of activities adds light to the collective consciousness, which in turn benefits all souls on Earth. (Matthew's Message, Dec. 21, 2008.)

How does the law of attraction work with the collective consciousness?

The law of attraction is neutral—it simply brings back from the collective consciousness what matches the energy of the peoples' thoughts, feelings and actions, thereby supplying in accordance with demand, so to say.

Because the preponderance of energy is being generated by the larger numbers of the citizenry, this impartial law is responding to their resistance to a proportionately greater extent than to the policies favored by the president and his supporters. (Matthew's Message, Aug. 3, 2014.)

Will I lose my individuality to it?

You do not lose yourself as an individual..., and you do not subjugate yourself to a greater common good that bulldozes over individual will in alignment with the harmonic of human beingness in its fullest flowering. Am I affecting the collective consciousness?

That which you think about, act upon and speak is affecting the collective consciousness. (Hilarion, Nov. 15, 2016, at <http://www.therainbowscribe.com/hilarionsweeklymessage.htm>.)

As you sit at the crossroads wondering which way humanity will choose to go, know that you are not helpless ones – you have ability to effect changes to the morphogenetic fields (fields which influence the pattern or form of things) that surround all situations.

These are fields of habitual patterns that link all people, fields which influence and are influenced by the habits of all people, whether of knowledge, perception, or behaviour.

It is a field that exists, where each individual inherits a collective memory from past members of the species, and one which also contributes to the collective memory, which affects other members of the species in the future.

This is why we tell you that you are more powerful than you know and why mindfulness in your thoughts, words, and deeds is so very important. It is through your focused intention, your love, your

intuitive clarity, and your light that changes to the current patterns in these fields take place. You are the ones who affect them! ...

As the energies upon the planet increase, there is more fluidity in all things, and so your ability to affect the morphogenetic field is greatly amplified. ("Hilarion via Marlene Swetlishoff: Affecting the Morphogenic Fields," February 22, 2015, at <http://goldenageofgaia.com/2015/02/22/hilarion-via-marlene-swetlishoff-morphogenic-fields/>.)

It feels like I'm doing nothing.

Never ever believe that you are spiritually doing nothing, serving no purpose, or that you are not a real Lightworker based on comparison.

The Light of your awareness is continually adding to the Light of the collective consciousness in ways you will never know. Let go of any and all judgment you may still hold about yourselves based in world concepts limited to appearances – that money, clothes, looks, power, sex, education, location, etc. are true standards of value. (The Arcturian Group, Nov. 1, 2015.)

Not everyone is meant to teach the masses or become a world figure. It is those of you who are quietly going about your daily duties, as you make small steady improvements within yourselves while radiating the Love/Light of Creation down into the Earth and out into the world, who are making the most dramatic impact on the Earthly negative environment.

We are seeking World Servers at a grass-roots level. Each and every one of you is needed to help lift and refine the collective consciousness of the masses. (Archangel Michael: Taking Control of your Destiny. Channelled through Ronna Herman, July 1, 2014, at: <http://www.ronnastar.com/messages-aam/latest.html>.)

Your work for the Earth's ascension is greatly needed and appreciated, and even those of you who don't feel as if you're making any impact are doing much more than you realize. ...

Even if you choose to rest in any given moment instead of performing work for the Earth's ascension, understand that your very presence on the Earth is heralding massive positive effects in your collective consciousness because of the pure vibration being expressed and radiated on your surface. ("The Ascended Masters and the Pleiadians: Allow the Illusion of Separation to Dissolve," channeled by Wes Annac, October 16, 2013 at <http://aquariusparadigm.com/>.)

When we refer to the presence of each of you heralding massive Light in your collective consciousness, we speak of a very real effect that we would show you if we could.

Dear scribe, the image we're sending you is that of Light flooding out from a single individual, like water from a hose, and seeping into the consciousness and perception of every soul around them.

Imagine your field of Light extending our miles and miles beyond your physical body, in every direction. Imagine Light pouring and flowing out from within you in every moment, and this Light being picked up on and radiated by everybody within your multi-mile radius.

This is the reality of your presence on the Earth and the effect it's having, and we don't say this to paint our communication with fancy words or express something intended to boost any ego-driven perceptions of yourselves as Lightworkers. ("Saan and the Arcturian Councils: You're Spiritual Explorers by Nature," channeled by Wes Annac, August 13, 2013 at <http://aquariusparadigm.com/>.)

In relation to the energies of the collective consciousness especially, many of you dear seasoned Lightworkers have spent fruitful time in your dreamstate continually transmuting negative and twisted-up energy, which is manifested and fed into your collective consciousness. ("The Pleiadian High Council: We'll Help Expand Upon the Teachings of your Oneness," channeled by Wes Annac, July 23, 2013 at <http://aquariusparadigm.com/>.)

Every opened heart and mind adds to the light in the collective consciousness of Earth's residents and benevolently affects the entire universe. That is how powerful each and every one of you is! (Matthew's Message, April 26, 2010.)

It seems like my vasanas (core issues) are going off right, left, and center right now

You are taking back the vibrational patterns you have exchanged, added to or participated in, thereby allowing you to move into the state-of-grace process.

Be aware that as you do so, you will experience the transformational clearing process and all it entails. However, it will not be as traumatic or as drawn out as it would be if you had not willingly and wholeheartedly agreed to take the initiative. (Archangel Michael via Ronna Herman: You Are in the Midst of a Spiritual Revolution," June 2, 2018, at <http://goldenageofgaia.com/2018/06/02/archangel-michael-via-ronna-herman-you-are-in-the-midst-of-a-spiritual-revolution/>.)

How can I help initiate the process of returning to balance and harmony?

One of the most important things you can do to initiate the process of returning to balance and harmony within the reality you have created is to apply the Law of Forgiveness to all your miscreations and interactions with others.

Doing so will immediately accelerate the process of returning to center, for it erases or breaks the energy cords you have attached to other people's solar plexuses, and it will also shut off the radiations to and from any negative collective consciousness belief systems that you have taken as your own. (Archangel Michael via Ronna Herman: You Are in the Midst of a Spiritual Revolution," June 2, 2018, at <http://goldenageofgaia.com/2018/06/02/archangel-michael-via-ronna-herman-you-are-in-the-midst-of-a-spiritual-revolution/>.)

Allowing your being to radiate rainbows of Light changes the Earth's vibration. People feel this change in their hearts and have an immediate sense of calmness and lightness.

You can radiate this rainbow light to any area that seems in need. You can send this light to the collective consciousness of humanity with the intention that their hearts receive and awaken to their Souls' imperative.

You can surround the entire Earth in rainbow light, and the depth of this powerful light presence will bring untold blessings to all beings. It is important to remember that Divine Light carries the spiritual qualities of Intelligence and Love. These qualities empower the Light to go where it needs to go and do what it needs to do. ("An Expanded Perspective from Archangel Metatron – Awakening Higher Consciousness on Earth," channeled by Shanta Gabriel, August 22, 2014 at <http://thegabrielmessages.com>.)

To love another when they hurt you is empowering not only for the one who chooses love, but to everyone around them and this radiates out into the collective consciousness field to heal and bless all

Humanity. (Hilarion, Oct. 23-30, 2011, through Marlene Swetlishoff, at [http://www.therainbowscribe.com/.](http://www.therainbowscribe.com/))

What role did the collective consciousness play in our spiral into deep third density?

Eventually some souls whose negative deeds dropped them from the light used their free will to downgrade the DNA of newer, less experienced civilizations. The changes made dense bodies with DNA containing electrons, which have much less light and vibrate at much lower frequencies than photons.

The reduction in light caused corresponding reductions in those civilizations' consciousness, brain functioning and life span. They lost all knowledge of their Beginnings, their weakened bodies were vulnerable to disease, and their temperaments included fear and all of its negative byproducts like cruelty, greed, anger, lust for power, unjustness, impoverishment, divisiveness and hatred—hatred is not the opposite of love, it is the absence of love, or light. Those are the conditions of third density civilizations.

It is not that no bodies on Earth have photons, and an unimaginable quantity is in the atmosphere. But electrons are dominant in the vast majority of your populace—that is why they are lagging in awakening spiritually and consciously—and throughout your world—that is why you have electric and electronic appliances and pay to use them instead of having photons’ “free” energy.

The way to ascend into planes where photons outnumber electrons is by increasing the amount of light in the collective consciousness. (Matthew's Message, Aug. 3, 2014.)

The human mind is limited to what is already known in collective consciousness. (The Arcturian Group, Nov. 1, 2015.)

Not only is the collective consciousness what caused the planet to descend into deep third density and [what] kept it mired there for millennia, but more recently [it is what] has been assisting it to ascend out of there.

And, because Earth loves all her resident life forms, she is eager for souls to steadily radiate their light into the collective consciousness, where it can offer sleeping souls the “lift” into spiritual awareness and the cellular changes they need to physically move into the Golden Age. (Matthew's Message, May 30, 2017.)

How is it being reversed?

The low vibrations emitted by all those souls’ countless thoughts, feelings and actions are within the collective consciousness, and ... its proliferation of low vibrations ... slowed the pace of society’s advancement consciously and spiritually.

This is changing—the light waves sweeping Earth are opening more and more hearts and minds, and everything in low vibratory levels eventually will be done away. (Matthew's Message, Jan. 8, 2017.)

At the beginning of Earth's ascension 70-some years ago, negativity was rampant in the collective consciousness. As individuals started responding to the light beamed to the planet from powerful far distant civilizations, the collective consciousness started swerving into positivity, and over a decade past in your timing, the light reached the sustained amount that assured the planet's course toward fourth density without deviation or delay.

Since then the light intensity has continued increasing as more and more individuals opened their hearts and minds and correspondingly raised the collective consciousness. Negativity lost its foothold and positivity became overwhelmingly dominant. (Matthew's Message, Feb. 1, 2012.)

As much as we'd love to bring you back into a higher vibration ourselves, the work must be done by an aware and willing humanity or you'll continue to be left in the dark. Fortunately, the rising awareness is enabling a growing number of seekers to start being the change they desire to see, and this is causing a ripple effect in the collective consciousness. ("Spiritual Guidance: Spirit is Becoming a Reality," channeled by Wes Annac, April 22, 2014, at <http://aquariusparadigm.com>.)

Your world could be transformed into the Golden Age in the twinkling of an eye IF that belief and vision were in the collective consciousness, but it is not and so all the changes will be a process. (Matthew's Messages, Oct. 22, 2008.)

Believe that the resolution can come quickly. Know that it can come quickly, because you are the masters of the destiny of the collective consciousness. Hear that well: you are the masters of your reality and the collective consciousness reality. You are the masters of the destiny and how quickly it can come. (Jeshua through Judith Coates, 12 April 2011, at <http://lightworkers.org/channeling/129130/jeshua-ascension-collective-consciousness>.)

Now, the ascension which is spoken about and is so highly desired is going to be the ascension of the collective consciousness. It will seem to come about eventually, but it will be done by one person – as you see, individuality – and by another person, by another person, according to their own choice and their own soul timetable.

And eventually, when there comes the recognition that there is truly only One of us, then the collective consciousness will acknowledge, “I have ascended. I have brought together all of my parts and I have remembered my Oneness.” And then the ascension will be known consciously. (“Jeshua: Do You Know How Blessed You Are?” as channeled by Judith Coates, January 2014, at <http://www.oakbridge.org>.)

As much as we’d love to bring you back into a higher vibration ourselves, the work must be done by an aware and willing humanity or you’ll continue to be left in the dark. Fortunately, the rising awareness is enabling a growing number of seekers to start being the change they desire to see, and this is causing a ripple effect in the collective consciousness. (“Spiritual Guidance: Spirit is Becoming a Reality,” channeled by Wes Annac, April 22, 2014, at <http://aquariusparadigm.com>.)

Our and your ability to (help) your entire world ascend is bred from the amount of service we give to the Earth and the amount of Light we’re jointly able to see enter the collective consciousness, and transmute the bulk of the lower-inclined energies that’d otherwise hold a whole planet of souls back from their evolution.

The souls you’ve termed the cabals and the lower astral beings who’ve fed them and their influence have wanted to see your

collective feeding darkness; to keep you far away from the pure and heavenly energies leading you onward toward the higher dimensions.

However, you've largely proven yourselves able to break away from the lower-dimensional spell of illusion they've cast over you. ("The Hathors: Dreamtime Assemblies, Fourth-Dimensional Consciousness and Heaven's Tangibility," channeled by Wes Annac, July 16, 2013 at <http://aquariusparadigm.com>.)

The stranglehold of the darkness is weakening and the planet is at a tipping point. This means that the collective consciousness of Light is stronger than the dark. ("A Message from Mira of the Pleiadian High Council (now on the Earth Council)," through Valerie Donner, Jan. 7, 2013.)

The raising of the collective consciousness has overcome the need for a more drastic cleansing, so you are to be congratulated for bringing it about. What you now understand is a clear example of your power to create your own reality. (SaLuSa, Nov. 5, 2012.)

Only when the collective consciousness reflects the intense desire and determination of a civilization to live in unity and harmony instead of divisiveness and killing can [unity and harmony] come about. (Matthew's Message, April 1, 2012.)

When the great majority in a civilization wants peace instead of war and deadly arsenals, the collective consciousness brings the desire to fruition. (Matthew' Message, April 1, 2012.)

There is nothing that you cannot achieve with your collective consciousness. However it must be directed and focussed on your intent, if it is to be manifested through your creative power.

Currently you are raising your levels in seeking an end to the old systems of control. That is helping speed up the changes, and the energy for change cannot be denied. It means that you have taken a positive approach and risen above the fear-laden prophecies that are being made about your future. (SaLuSa, Aug. 17, 2011.)

Although we hope that none of you is apprehensive about the recent predictions of cataclysms, we shall tell you that there will be no 1000-foot tsunami; no celestial bodies will collide with Earth; radiation from Japan's Fukushima nuclear plant will not cause population extinction; no plague will annihilate most of the world's peoples; living underground will not be necessary; the fight for freedom in Arab countries will not ignite WWIII.

Your desires that none of those will occur are added to Earth's intention that they will not, and the energy produced in the collective consciousness assures that none of those devastating events can be manifested. (Matthew's Message, June 11, 2011.)

With the light continuing to intensify, the Illuminati's unconscionable acts cannot much longer plague Earth. Just as you and we are seeing the undeniable evidence of massive shifts in the collective consciousness, so are they, and they know that this will end all darkness on the planet. The light in expanded consciousness has led long-oppressed peoples to raise their voices for freedom, and that cry will be echoed over and over again until all peoples throughout your world are free. (Matthew's Message, March 12, 2011.)

When you reach — now we are talking collective consciousness — when you reach a realization as a race called Gaians that you are not alone in the multi-verse, it changes the perceptual mindset of how things such as governments, which is really stewardship, is managed and organized. (“Sanat Kumara on the Changes Happening to Us,” January 30, 2017, channeled by Linda Dillon for the Council of Love, <http://counciloflove.com/2017/01/sanat-kumara-on-the-changes-happening-to-us/>.)

What is the fate of those who resist change?

The task of accepting new ways of seeing and being can be wrenching for those still solidly fixed in the old ways. ...

Secure and comfortable only within the boundaries of what is known and accepted by collective consciousness and ignorant of their own innate power and identity, these dear ones continue looking to the rules and beliefs of others for direction, until at some point this approach no longer works and they are forced to begin their journey of awakening. (The Arcturian Group, Nov. 1, 2015.)

In learning of the cabals' actions, a crafted and instated paradigm of unknowing and unconsciousness will be broken in your Earthly populace and many of you reading this may task yourselves with helping calm those around you who could take to vengeful or angry mindsets when learning of the cabals' activities.

Many of you will be tasked with helping to calm the Earthly populace upon learning the worst of what's been done to your collective, and your influence on the collective consciousness will strongly help souls who could've otherwise taken to violence or anger to be calm in the time of humanity's initial awakening. ("Jeshua and the Ascended Masters: Spiritual Liberation will help you Create Heaven on Earth," channeled by Wes Annac, August 26, 2013 at <http://aquariusparadigm.com>.)

How are the other kingdoms doing in absorbing the light?

Animals and plants are absorbing more light than most of humankind; at this moment, the light in people varies from brilliant to just enough to keep bodies alive.

Now then, every person and every thing in your world emits vibrations in consonance with each form's consciousness level, and that is determined by the amount of light in each.

The atoms in inanimate objects—say a pebble, football, nail and chair—have minimal consciousness; exceptions are crystals and gold, which have a high degree.

The consciousness level of soil is higher than objects and so is that of slugs, worms and short-lived insects. Higher on the scale are the species of insects that have a well-developed hierarchy and clearly-defined working system within it.

The plant kingdom has a very high level of consciousness. Trees have intelligence and emotions that few people would even consider possible and extend far beyond the acorn that knows how to become a mighty oak and the apple seed that knows how to bear fruit.

Tiny flower seeds know their colors and whether to blossom for a season or flourish year after year. The generally unseen, therefore unknown, souls in the Devic kingdom, who work hand-in-hand with all of Nature, also are highly-advanced consciously and emotionally.

Humans and other high orders in the animal kingdom have the highest level of consciousness—instinct, intuition, memory, learning and reasoning capability, and the widest range of feelings—but only humankind also is endowed with conscience and Creator's gift of free will.

Although each living being and each inanimate thing serves a purpose in the evolutionary process of all, it is the human population that sets the pace.

Whereas all other life forms on Earth operate within their respective innate guidelines that work in harmony with Nature, people can choose to act in godly ways or not, to heed conscience or not; and their collective choices determine the civilization's evolvement status.

As humankind evolves via the light in spiritual and conscious awareness, so do all the other forms on the planet, and the collective vibratory emissions advance the entire world.

And, as a world advances, life becomes increasingly simple and joyous! It is only in third density's lower vibrations that a civilization creates all the complexities born of negativity. (Matthew's Message, Aug. 3, 2014.)

What will happen when the pure feminine energy expands throughout the world?

The collective consciousness will take a quantum leap into Love as the pure feminine energy expands throughout the world. ("Archangel Gabriel: The Lion's Gateway Initiation," channeled by Shanta Gabriel, July 15, 2013 at <http://www.thegabrielmessages.com>.)

How can we contribute to change without chaos?

[There] is a part of you that never changes and this is a part of you that, when taken into collective consciousness, helps to maintain the stability of the energies during these times.

All is unfolding, changing and renewing. It does not necessarily mean that it is not the highest outcome. It means simply that it is time to ride with it. You have the tools. You have the experience. You have the knowing – just remember this. (Hilarion, Nov. 27, 2016.)

When humanity comes to understand the energy at work sustaining your reality and the fact that your very spiritual essence is comprised of such energy, the oneness of your collective consciousness will be understood and the fact that you're all interlinked and can feel each other's energy and emotion will be understood as well. ("The Hathors: Influential Awakenings, Accepting Unexpected Truth and Creating Collective Revolution," channeled by Wes Annac, August 16, 2013 at <http://aquariusparadigm.com>.)

This shift ... will occur when the light your people emit matches the desire for evolution in the collective consciousness of the self of humanity. ("The Pleiadians: Lock Was Broken on the Time Machine – Now Is Here," channeled by Maryann Rada, March 13, 2014, at <http://timetransformers.wordpress.com/>.)

Humanity will understand that you're energetically linked together and can share and transmit energy, information and emotion back and forth. You do so quite routinely, and what many awakening Lightworkers are feeling in this very moment can be traced back to the energies prevalent in your collective. When will we realize the changes Fourth Dimensionality leads to?

Your collective consciousness has to reach a certain purity before you can experience the truly amazing metaphysical things your fourth-dimensional earthly experience has to offer. ("Spiritual Guidance: Your Work is Poised to Increase," channeled by Wes Annac, April 8, 2014 at <http://aquariusparadigm.com>.)

When the collective consciousness changes, you are going to see some changes in the ones who have the golden coins. And you are going to call it a miracle if they want to be benefactors and to change the way they do their business. You will praise it as a miracle.

It is coming, and you can add your energy to it by knowing that it is coming. Old thinking is passing away. Old thinking is passing away because you have decreed that old thinking does not work for

everyone. ("Jeshua: Your Robotic Self," as channeled by Judith Coates, November 2013, at <http://www.oakbridge.org>.)

Many Lightworker/Star Seeds have been working to shift the collective consciousness.

We know that you have been actively doing your best for many experiences on the timeline to shift the collective consciousness and anchor a reality that is life sustaining for all.

We acknowledge you for your true dedication and continued service to this global process. It is that focused dedication and service that has flushed these hidden, often suppressed, misqualified energies to the surface.

These emotional patterns and attitudes of fear, self-righteousness, prejudice and anger have always been an aspect of the human energy field, as have a sense of lack, of unworthiness, not good enough, less than, hopelessness and helplessness.

Now more than ever these very energy qualities are being brought to the forefront, to center stage of your current time. Most of these misqualified energies and patterns have been hidden, denied and suppressed by each and every individual. There are those who will act out these emotional energies in a covert, manipulative and often unconscious manner. In doing so, they truly distort and use their creative abilities in harmful and life suppressing actions.

These dense misqualified emotional energies are often referred to as the shadow of the individual. They have been a part of the human consciousness since the beginning of your timeline. Remember this planet is a planet of duality, of opposites. So this hologame has offered the choices of good/bad, right/wrong, love/fear, separateness/oneness, light/dark, life-sustaining/life-diminishing.

Every earthwalker on this planet is a multidimensional being of divine consciousness, choosing to enter this timeframe and play out these emotions. You understand that everyone is empathic, sensitive and

able to feel the energy fields surrounding them. However, most individuals are totally unaware that they are feeling, responding to and acting out the emotions of those around them, of the collective field. ("The Team' via Peggy Black: Transform The Shadow of the Collective," February 24, 2017, at <http://goldenageofgaia.com/2017/02/24/team-via-peggy-black-transform-shadow-collective/>.)

Those of you consciously utilizing the higher-dimensional energy you're being given have as well made great effects in your collective consciousness. ("Our Universal Family: You've Entered a Time of Rapid Progression," channeled by Wes Annac, November 15, 2013 at <http://aquariusparadigm.com>.)

Those of you who have laid the groundwork, and who are well on your way to Self-mastery, are now ready for the next level of spiritual awareness. You – the Star Seed, the brave ones who have suffered through and emerged triumphant from many dark nights of the Soul in order to purge yourselves of old self-limiting concepts and energy patterns – are now ready to step to the foreground as the vanguard of evolving humanity and the inhabitants of the Light, bright and refreshed Earth. ("Archangel Michael: The Next Level of Spiritual Awareness," channeled by Ronna Herman, April 2, 2017, at <http://goldenageofgaia.com/2017/04/02/archangel-michael-via-ronna-herman-the-next-level-of-spiritual-awareness/>.)

Those of you consciously utilizing the higher-dimensional energy you're being given have as well made great effects in your collective

consciousness. ("Our Universal Family: You've Entered a Time of Rapid Progression," channeled by Wes Annac, November 15, 2013 at <http://aquariusparadigm.com>.)

The Lightworker public has been instrumental in transmuting the bulk of dense energy prevalent and fed in your collective consciousness, and many of you have taken personal sacrifices in allowing the dense energy of others to come through your temples and be transmuted. ("Jeshua and the Ascended Masters: Spiritual Liberation will help you Create Heaven on Earth," channeled by Wes Annac, August 26, 2013 at <http://aquariusparadigm.com>.)

You are the Light Bearers of this time. Your Soul has led you into new ways to perceive and receive the wisdom of the ages. Your presence makes a huge difference.

All that you are longing to experience as an awakened soul on the planet is within your grasp. Together you are changing consciousness on the earth by lifting the spirit of all humanity into global awareness.

New life is occurring within the Earth as you are growing and awakening as a community of Light. The remembrance of your soul's collective consciousness through the coding within you has been fired.

You have a deep knowing of what is possible because you experienced it in other times and in other dimensions. These are the sacred teachings encoded in the Light, and it is this that you are bringing to the planet now.

Through you all of humanity is awakening. Through you the Earth is evolving and transcending time and space, allowing spontaneous evolution to come ever closer. It is all possible through the Light and power of the Divine Presence working through you. What must we do to assist with the cleansing of the collective consciousness?

You must consciously examine your beliefs and discard those which no longer serve your greatest good. You must remove yourself from the restrictions and the distortions of the collective consciousness belief patterns of the past.

By doing so, you will gradually be lifted from the stifling density of the Third- and lower Fourth- Dimensional environment. You must disentangle yourselves from the confinement of misplaced obligations, real or imagined restrictions, and the distorted, debilitating beliefs of the lower realms of physicality. (“Archangel Michael via Ronna Herman: The Next Level of Spiritual Awareness,” April 2, 2017, at <http://goldenageofgaia.com/2017/04/02/archangel-michael-via-ronna-herman-the-next-level-of-spiritual-awareness/>.)

Find a way to re-connect all three parts of your individual consciousness (subconscious, Super-consciousness and your waking consciousness) so you have access to the Higher Mind that guides you from within, through your High Heart Center. This consciousness is You, your Higher Self that exists, also, as a collective consciousness. And yet also exists as units capable of

individual thought. ("The Council of Nine: On Expansion of Self-Awareness," channeled by Eliza Ayres [aka Tazjima Amariah Kumara], May 17, 2014 at <http://bluedragonjournal.com>.)

Humanity's progress is based primarily on your efforts, and so far, you've enabled the light to enter your collective consciousness in much greater ways than before and this is causing the lightening and refinement of your perception. ("Spiritual Guidance: Spirit is Becoming a Reality," channeled by Wes Annac, April 22, 2014, at <http://aquariusparadigm.com>.)

Allow your imagination to flow, dear ones. What little we are able to convey here is only a minuscule portion of what you are about to discover or are even now in the process of discovering. Many worlds exist outside the boundaries of your mind, but not outside of your greater consciousness, as each of you is a facet of the Mind of God. Begin to tune into the other facets of consciousness that exist, simultaneously with your own and allow a sense of wonderment to fill you up – as there is no end to what you will discover on your journey within. Bon voyage! ("The Council of Nine: On Expansion of Self-Awareness," channeled by Eliza Ayres [aka Tazjima Amariah Kumara], May 17, 2014 at <http://bluedragonjournal.com>.)

The efforts you're making in the physical to establish a new paradigm are necessary indeed and will go on to have great effects in your collective consciousness. ("Our Universal Family: Every Facet of Consciousness is Inexplicably Connected," channeled by Wes Annac, October 28, 2013 at <http://aquariusparadigm.com>.)

Where do you get your information from?

We do have sources of information in addition to our lifetimes, and God is one. We observe the momentum of activity in Earth's energy field of potential; we communicate with persons in Nirvana who monitor the planet, souls at other stations like this, and members of advanced civilizations; and we can tap into the collective consciousness of Earth and the mass consciousness of the universe. (Matthew's Message, February 3, 2014.)

We have access to the Akashic records, the mass consciousness of the universe and the collective consciousness of Earth, and we know what is in Earth's energy field of potential. It is in that field where possibilities become probabilities and probabilities become certainties, depending upon the amount of energy your collective thoughts, feelings and actions put into a particular potential happening. (Matthew's Message, Dec. 29, 2012.)

Akashic records are vibrational patterns - positive or negative - which are stored within the cosmic library where the total history of Creation

is recorded and maintained. ("Archangel Michael - Assuming Your New Galactic Mission," transmitted through Ronna Herman, Sacred Scribe - December 28, 2012, at <http://www.ronnastar.com/messages-aam/latest.html>.)

What work are you doing with and on the collective consciousness?

We are clearing the distortions of the third- and fourth-dimensional collective consciousness belief patterns and bringing those dimensions back into their originally designed spectrum of duality. ("Archangel Michael: Creating your Sphere of Heavenly Light," channelled through Ronna Herman, February 2014, at <http://www.ronnastar.com/messages-aam/latest.html>.)

There are plenty of souls in the higher dimensions who haven't had a taste of the Earth or the extreme and intense energies passed around your collective consciousness, but seek nonetheless to offer themselves to your ascension and have worked with much of themselves from their various positions to help achieve it. ("The Ascended Masters and the Pleiadians: Ascension is Being Pioneered by Each of You," channeled by Wes Annac, August 2, 2013 at <http://aquariusparadigm.com>.)

We'd say that we're going to step up the amount of channels we speak through as well, but that won't be a direct result of our actions or of the cleansing of the collective consciousness of humanity and the resulting fear that won't be shown in your collective regarding our existence.

Rather, this will come about because of the awakening taking place in the Lightworker collective, and because many more souls will choose to open themselves up to our energies and impressions. ("Pleiadian Interview: Contact Protocol, Glimpsing the New Earth and Increased Telepathic Ability," channeled by Wes Annac, July 30, 2013 at <http://aquariusparadigm.com>.)

A collective of higher-dimensional souls have chosen to funnel themselves down and exist on the Earth in an effort to bring Light to

the Earth's surface and collective consciousness, and to themselves experience the Earth and grow to understand it as they were uplifted and as they uplifted the collective. ("The Ascended Masters and the Hathors: You're Steadily and Constantly Evolving," channeled by Wes Annac, July 26, 2013 at <http://aquariusparadigm.com>.)

Like many of you, we've been working with the energies of the collective consciousness of humanity. We've been working to transmute the bulk of negative energy given out and manifested in your collective consciousness in every moment, though we haven't done quite as much as you dear souls on the ground have in the way of transmuting such energies. ("The Pleiadian High Council: We'll Help Expand Upon the Teachings of your Oneness," channeled by Wes Annac, July 23, 2013 at <http://aquariusparadigm.com>.)

What is our future relationship with the collective consciousness?

You live as the power of the Christ which you are, no longer held by the strings and fears of collective consciousness. You live as the Christ and the power of the Christ, in freedom and in joy. ("Jeshua: You Are The Power Of The Future," as channeled by Judith Coates, August 2013, at <http://www.oakbridge.org>.)
