Chapter 1. Taking the World into the Golden Age of Gaia

With the incredible exposure to higher-dimensional energy that came on 21/12/12, we've entered a Golden Age for Earth and are now in the process of actualizing it and moving towards a full restoration of consciousness at a time some months into the future.

The guns of war continue to fire in Syria and pockets of conflict remain in the world. The old economy may continue for a short time yet to disadvantage the workers of the world, burdening them with debt, foreclosing on their homes, and denying abundance to the vast majority. But these circumstances will soon end.

An inheritance of laws designed to take away the civil rights of citizens remains after an attempt by a global cabal to assume global dominance under the guise of a war on terrorism, the terrorism being a false front which they themselves erected.

The corruption of almost everyone in power leaves all institutions of government, society, religion, education, medicine, etc., in immediate need of reformation.

There is much work to be done to clean house and set the world in order to realize what awaits us in the Golden Age of Gaia and this book is a look at what the Company of Heaven recommends that we do to begin that work.

What I mean by the Company of Heaven is first of all the ascended masters of this planet and other planets, who have joined with them to rescue and resuscitate Gaia and her inhabitants. Many reading this book and encountering such a statement for the first time will wonder if I've lost my sanity. Ascended masters from other planets? But indeed I haven't lost it.

To show why, let me digress for a moment. The elite that ruled the Earth for centuries has seen to it that a paradigm called empirical materialism has shaped our thinking. Such a paradigm sees only what we can touch, hear, see and feel as being real. It condemns us to thinking that we live one life and then enter oblivion whereas in fact we're eternal beings, all of us, who simply step out of the physical body at and live on.

SaluSa of Sirius

The ascended masters live in dimensions that are higher than our own. This fact makes them invisible to us and that alone induces most of us to say they aren't real. But as we enter the Golden Age of Gaia, we'll need to change many elements of our thinking and accepting that life exists on many dimensions is one such element.

The ascended masters exist and they direct many aspects of the future development of this world.

But I said “the ascended masters of this planet and other planets.” And I hear someone gasp in astonishment.

Terrestrials like Billy Meier have been meeting extraterrestrials like Semjase of the Pleiades for decades

SETI (the Search for Extraterrestrial Intelligence) has pointed its radio telescopes to the far reaches of space to hear beeps and clicks indicating the possible presence of life in other parts of space. And they haven't come forward to say that life exists elsewhere.

But in fact that life in other parts of space has been here around this globe for as long as this world has been in existence. Our star brothers and sisters populated this globe in the first place. We are them and they are us. We originally hail from planets in the Pleiades, Sirius, Arcturus and other star systems.

Their societies are more advanced than ours and their fleets are here, around this planet, at this time to help us emerge from the dead hand of the global cabal known as the Illuminati and to enter into and enjoy the Golden Age of Gaia.

That story can be read in other places. (1) And it is a magnificent story to read and enjoy. I'm sure you'll thrill to hear it. But what the special work of this book is is to introduce those who are themselves part of this effort to revive and reform the world.

Many of us who read these pages are known as “lightworkers” and many lightworkers are also “starseeds.” Lightworkers serve the Light, or more specifically the Divine Plan for this age. Rather than being in service to self, they are dedicated to the service of others. Often they’ve remained outside traditional lines of employment to be available to the Light. They apply their skills and latent knowledge to the work of assisting Earth to emerge from centuries of oppression and exploitation.

Starseeds have come here this lifetime from other dimensions and planets to assist in the work of birthing Nova Earth. They are the ground crew in this monumental effort that’s underway and they occupy positions in society from educators to presidents, awaiting the signal to begin their work of reforming this planet and introducing abundance, freedom, peace, and integrity into all its institutions.

These star brothers and sisters have been leaving their calling cards for decades as well

I will not be looking at the technological side of their work. I will not be looking at the medical side, artistic side, educational side, or many other areas. Here I’ll be looking at three social areas, which reflect my own background as a social scholar: restoring individual freedom, achieving world peace, and bringing back good governance. And even there my task is simply to introduce these areas, not to provide a blueprint.

My task, I'm told, is to inspire and encourage, not to lay out directions in detail and not to do the hands-on work involved in bringing in Nova Earth. I take that charge from a second group of beings, even more wondrous and incredible than the two I've just introduced. And that is the celestials.

The celestials, or angels and archangels, seldom enter into our thinking because the dominant empirical-materialist paradigm has absolutely no room for them. But they do exist and they direct the efforts of the ascended masters, terrestrial and extraterrestrial.

Archangels like Michael lead the Company of Heaven

I personally serve Archangel Michael and I cannot even say his name without the tears welling in my eyes. I apparently have served him for millennia, though I have no memory of it, ensconced in this heavy, third-dimensional suit of armor which prevents recollection of much else than my daily needs. We've travelled into the heart of darkness together, he tells me. I've seldom accompanied him to Earth. Most of my colleagues have been here many more times than I.

But the angels and archangels do exist and, along with the galactics and ascended masters, have been communicating to us regularly via the Internet, through sensitives called "channels." Their literature is vast and available to all to read and is in fact the source I draw most of my material from.

In the last sixty years, this "Company of Heaven" has seen to it that the vast machine known as the secret state, shadow government, military-industrial

complex, New World Order, or Illuminati has been deprived of all it needed to sustain itself. Its plan to start World War III and destroy all but 500 million people on the planet, who would then serve as docile slaves in a world totally dedicated to their own pleasure has been defeated.

Weather-warfare weapons like HAARP (High-Altitude Auroral Research Project), which caused almost all of the earthquakes, hurricanes, and other “natural disasters” of the last decades have been silenced. The manmade pandemics from AIDS to SARS have been neutralized before they could work their damage. The effects of the black operations from the Oklahoma City bombing to 9/11 to the London Bombing have been minimized. The work of the Illuminati from sex slavery to financial enslavement is being exposed and the members of the Illuminati are being contained or have been removed from their positions of power.

Weather-warfare weapons like HAARP have caused most of our “natural” disasters

As we move further into the Golden Age of Gaia, we are being invited to create the new structures that will provide peace, harmony and integrity for all who dwell on Earth. In this we’ll be joined by the galactics and sages. But they know this is our world and are guided in what is done by our choices. Let’s look at what the work of reformation is.

Chapter 2. Restoring Our Rights and Freedoms

The restoration of our individual sovereignty, our personal freedom and human rights, is a high priority of the Company of Heaven and a vital development in the building of Nova Earth.

Among all sources, it's one spokesperson for the Galactic Federation who discusses the matter at the greatest length. So in this chapter I'd like to restrict myself to what SaLuSa of Sirius has said about restoring sovereignty to Earth's citizens.

SaLuSa told us in Nov. of 2012:

“Ascension is only the start, and afterwards we have much to do by way of quickly moving you into the life changes that go with it. We believe that many of you are now aware of what that means as far as raising your quality of life, and restoring your sovereignty.” (1)

We now see that he was speaking of Gaia's Ascension to the Fifth Dimension, which occurred on 21/12/12. Our Ascension will occur some months into our future. The restoration of freedom is an important part of building Nova Earth, before and after Ascension.

Planet Earth has been called by some a “prison planet.” SaLuSa tells us that full freedom “is nothing less than you deserve for having been treated as slaves for so long.” (2) “Your lives at present are really so restricted and controlled.” (3) He explains:

“The set up that has been maintained by the Illuminati [was] one that has kept you under their control. They have sought to create situations that make you more and more reliant on them.” (4)

“You have been deliberately held back, to maintain the old system that feeds the bank balances of those families that are in power. The few control the masses but that is all about to change, and our allies have progressed to the point where the changes can begin.” (5)

9/11 truly was an inside job

Black operations like the Oklahoma City bombings, 9/11, and the London Bombings and legislation such as the Patriot Acts were designed to take away the citizens' civil rights. SaLuSa reports that “all over the world your rights have been gradually eroded, and often draconian laws introduced to replace them.” (6)

But “there is soon going to be one astonishing revelation after another,” he explains, “and the full intent of the plan for your freedom will be clear.” (7)

The Galactic Federation will restore our rights and freedoms completely, he states.

“For too long your rights have been taken away, and the time has been reached for them to be totally restored.” (8)

“Your sovereignty is to be returned, and we of the Galactic Federation will be party to any changes to ensure that they are both legal and just.” (9)

“You have called for help to remove those that have taken away your rights. Be assured you shall become completely free again, and the wrongs against you shall be put right.” (10)

The ones who strove to take rights and freedoms away from us will have to answer for their crimes.

“Returning your freedom is paramount in our minds, and we will remove all those controls that have been used to keep you in your place. Those responsible will at some stage answer for their crimes against Humanity, so we ask you not to concern yourselves too much with what will happen to them. It is more important to concentrate on your own needs and preparation for Ascension.” (11)

The Illuminati occupied all the top levels of every power structure.

The body of laws will be cleansed of all draconian measures. The constitutions of each country will be rewritten to restore the sovereignty of its citizens.

“The Laws of the Land ... will be carefully scrutinized and amended, to take out those that are unjust and unlawful. There will be a return to a country's Constitution with added benefits arising from your coming Ascension.” (12)

The American Constitution in particular will be restored to its original divine form.

“These are the important times that many of you have come to Earth to participate in, and it will be a glorious period of achievement where the people will take back their sovereignty, and re-write the Constitution.” (13)

“Your rights will be given back to you, as originally covered by the Constitution. Yours shall be a model for the whole world, as you come together in the Oneness

that marks a true sovereign civilization. It will be based upon spiritual concepts that will elevate you to the level of Ascended Beings.” (14)

Instead of having our path created by others, he promises, “you will create your own reality.” (15)

“Once the influence and interference of the dark Ones is finally stopped, and that will be over the next few months, you can then relax and begin to enjoy the sudden freedom that shall be returned to you.

Democracy will be restored

From there on the whole atmosphere "will be lifted up and much emotion released, as people realise that at last real peace has descended upon Earth.” (16)

“You will become free and, with abundance and other benefits due to you, will feel a great wave of joy and happiness sweep across the Earth. We shall be openly with you and participate in your celebrations, because it will for you be an historic occasion.” (17)

“We can hear a big sigh of relief pass all around the world, as you enjoy a level of freedom unlike anything you have experienced for eons of time. Go about your daily travels with such thoughts in mind, and know that you do not have much longer to bear the present chaos.” (18)

“True freedom is not really something you have yet enjoyed,” he suggests. (19) Our star brothers and sisters invite us to come out of hiding and reclaim it.

“You should savor the coming times as you claim back your sovereignty.” (20)

“Come out of your cocoons that are hiding your true self, the Light Being that you are and always will be. This is the time to claim your divine rights and sovereignty, and you are being given every help to do so.” (21)

Masses are marching worldwide to win freedom back

Already the movement to take back our sovereignty is gaining momentum.

“You are already beginning to take back your power, and with it comes the confidence to take charge of your future. You have been dictated to for far too long, and kept from claiming your divinity. It is inevitable and indeed intended that you should take back your sovereignty, and that will not take very long to be achieved. ...

“It will be a wonderful experience for you all to jump into the future, and your new found freedom will be exhilarating and a joy you have not yet fully envisaged.” (22)

Thus one of the first steps involved in building Nova Earth is to reclaim our sovereignty, rights and freedoms after the unsuccessful attempts of the cabal to deprive us of them. The post-Ascension period will be marked by an exhilaration born of having taken back the power to create our own future.

This is one of the areas that we have the ability to lead in ourselves. Whereas in some, such as the removal of toxins and pollutions from the planet, we must have galactic assistance, in restoring our rights and freedoms, we have the full ability to win back the ground we have lost ourselves.

Chapter 3. Achieving World Peace – Part 1

In looking at how we're to build Nova Earth, we listened recently to SaLuSa's statements on how individual sovereignty would be restored to the world. The next area of our co-creation I'd like to look at is the achievement of world peace.

While SaLuSa was alone in speaking about the former topic, many of our sources discuss the return of peace. In the next series of articles, I'd like to examine what they have to say on that topic individually, beginning with Archangel Michael, the warrior of peace and warrior of love, moving to the galactics, and then listening to our terrestrial ascended masters.

Archangel Michael

Archangel Michael declared the war against the cabal over in November of 2012.

"You have been to war, and ... the war has been won. And it has been won with love, W O N and O N E. ...

"I wish to invite all of you to acknowledge everything you have been through, the darkness, the despair, the disappointment, the struggle and the rising up, the letting go of the old and the embracing of truth, not of my truth, of your truth and

of the truth, the honoring of each other and the allowing of the blossoming of love.

"You have done this, and yes, you have won the war. You have won the lightworkers', light-holders', love-holders' war. Now, I bring you back." (1)

He reminded us that, after the Second World War, there were pockets on the Earth that did not realize that the war was over. He doesn't want that to happen again.

The galactics ensure that no nuclear arms can be exploded on the planet

"When there have been wars in remote places, or even on the battlefield of World War II, there were places the war was over, and some did not know it. So they did not acknowledge that that struggle, that violence, that devastation had ended.

"So there are places, in the heart and on the planet, where there is not an acknowledgment that the war has been won. So that is why I am encouraging these events, this acknowledgment, and the spreading of the good news.

"The war is over, and you have won. Which also means we have won. Which also means we go hand-in-hand, and hand-in-hand and heart-in-heart; that we go forward in this completion and re-creation [of Nova Earth]." (2)

Last year he talked about the boulder of events rolling down hill, gathering momentum. But by November of 2012, the boulder had come to rest: "The boulder is at the bottom of the hill, my friend. You can jump off now and dance in the meadow." (3)

Archangel Michael has been constantly at work bringing peace to the world. In Sept. 2011, he revealed one of his interventions - in Libya. He said that the desire of NATO for

peace that arose before their intervention in Libya in 2011 was largely the result of his own activities, which he then went on to describe.

“It was an energetic healing. It was an instilling of the desire for peace. It was a dire exhaustion of the struggle for war. It was a letting go. It was moving this group energetically from being in a place where they felt they had to react, and the only way to progress was to be offensive, to reminding them that they can be proactive in creating a very different world and a world of peace.” (4)

But by far the most important contribution Archangel Michael and the celestials have made towards the achievement of world peace is putting the Illuminati in containment.

Supreme Court Chief Justice John Roberts was the first person identified as being in containment.

Before we discuss containment, let us consider that matters in God’s universe do change. All is not somehow stable, unyielding, the same over time. Even a process like Ascension is revised and innovations are introduced even at the level of the universe.

One thing that’s different about this Ascension from all others, such as that which occurred at the time of Atlantis, is that, in this Ascension, people are ascending with the physical body rather than after having dropped it.

SaLuSa tells us that this Ascension “is unique because you will ascend in a physical body, that has changed its body cells to make it suitable for life in the higher dimensions.” (5)

Ela of Arcturus told us in 2009: “Within your Universe you are however about to experience Ascension in such a way, that it is correctly described as unique. You are privileged to be part of the process of Ascension, but more so as you will ascend with the higher expression of your physical body. ... To be as it were, the pioneers of a special dispensation from the Creator, and to be on Earth at such a time is truly worthy of such fine souls as you are.” (6)

A second unique aspect of this Ascension is the use of containment to stop the opponents of Ascension. Previously in Atlantis, its opponents had launched a war that saw Atlantis sink under the waves. And even here now, all of us were expecting mass arrests of the opponents of Ascension, when suddenly Archangel Michael announced that there would be none. It appeared that even SaLuSa was taken by surprise.

We don't yet know what containment may look like

As late as May 11, 2012, SaLuSa was saying: “You are looking at weeks, rather than months, for the mass arrests to take place. However it is a big operation that cannot start until everything is in place. Having come this far we want it to run smoothly, with as little trouble as possible.” (7) On July 12, 2012, after containment had been introduced, SaLuSa was still speaking as if mass arrests were imminent and advising us not to become violent:

“The main point is that it has commenced and will suddenly burst into large scale action. It will be of such an impact that by no means can it be kept quiet by those who hold back the real news. ...

“Whatever peaceful means you use to get your leaders attention is acceptable, but please avoid hotheads taking over, and beware of infiltrators who are out to cause trouble within your ranks.” (8)

But in *An Hour with an Angel* on July 2, 2012, Archangel Michael hinted at the fact that the archangelic company had decided to change the game plan. We were discussing how the cabal was going to be neutralized and he said: “It is far easier for us to address this issue.”

“This is part of what we have spoken of, oh, in the past year, of when you have asked what is the role of the Company of Heaven in the unfoldment of the Divine Plan. And I have said to you that there are ways and means, and actions, that will be felt, witnessed, upon the planet that are being taken. And they are numerous, far more numerous than you are even aware of, or even need to be.” (9)

He then explained a new process, which he called containment, that the archangelic host was going to introduce, which again was an innovation in Ascension. The discussion is sufficiently interesting that I quote him at length.

Jamie Dimon, CEO of MorganChase, was revealed as the second person known to be contained

“We have a process that you do not understand, because you tend to think in terms of your reality on Earth, of course. But you can think of it as a process of containment and of restraint so that these beings are restrained and contained, and for all intents and purposes, for your purposes and references, they are taken out of action. Or the actions that they are permitted to participate in are mostly illusion, and they do not affect the collective. In fact, if anything, they simply bounce back at the individual.

“Each of you is fully aware of the bubbles and the shields within which you operate. And the purpose of those containers, or those layers of protection, which we have spoken very often of, is that nothing that is less than love is allowed to

penetrate. But we have never spoken to you, or we have not spoken in such a public forum, let us put it that way, of putting restraints or containers around those who do not wish to contribute to the growth and the evolution and the shift of Gaia and of the human race.

“But if you are looking for storm troopers, dear one, if you are looking for the activation of forces, then you are looking in the wrong place, because what you have need to do and what I am asking you to do is to begin to look with your third and fourth eye, and to begin to witness and to observe how these beings are being restrained and contained. And how what you think of as their sphere of influence is simply disappearing. ...

“So this I ask of you. Do not become entrenched in what you think is going to be a third-dimensional quasi-military maneuver to go to people’s homes and put people in jail or in contained environments. The containment is on a whole, completely different level.” (10)

Bashar al Assad is in containment. It's probably certain that he is not the power in Syria.

He then explained how containment worked.

“Think of a box, think of a storage box. Think of a box that you see coming off the large ships, containers. Only these are containers of light, these are containers of pure energy, these are containers of love. And the individual — or the group, by the way, because there are several where we have simply put an entire group; it is easier that way, and more rapid, by the way — we are placing these beings in containers of light and love.

“Their energies that may be disruptive or based on the old paradigms of hatred or greed, control, cruelty, just plain nastiness, my brother — they’re placed in these containers and that energy has no way, because they are sealed, and they are sealed by the mighty ones — myself, Michael, Raphael, Uriel, Jophiel and Gabriel. They are sealed. And in that sealing, their negative actions, emotions, etc., cannot escape.

“They remain there, continually and constantly penetrated by love and light.” (11)

The cabal will not escape from containment until there has been a purification of motives and intentions, he said.

“If you look closely at one of these who are contained, sometimes you will hear screams, cries for mercy, false promises of good behavior, but they remain there until such time as the purification is absolutely complete. And that decision of removal lies in the hands of the Mother and Father.” (12)

He explained that “this is a method of bringing peace that has not been utilized — well, it has been utilized by a few select people, human beings that we have given this to, but it has not been used as a strategy, let us put it that way, since the time of intergalactic wars.”

“Even when we removed what you have thought of as the, hmm, negative forces of the ETs, those who were abductors and slave masters, even when they were removed to a different universe about a decade ago, we did not utilize this method.” (13)

Later in his interview with Stephen Cook on *The Light Agenda*, revealed that containment had not been used in Atlantis and was a significant innovation. “During the time of Atlantis,” he said, “we did not invoke or practice containment. That is the biggest change [in Ascension], the shift that we have put in place during this time of change.” (14)

When it was first announced one lightworker said: “The ‘containment,’ as many channels describe it, is not possible. There will be actual physical arrests of the Cabal taking place. The positive ET forces will only assist from the distance with their light healing and balancing technologies to ensure they will happen with as little violence as possible.” (15)

But Archangel Michael began identifying the names of people who were now in containment: Supreme Court Justice John Roberts, J.P. MorganChase CEO Jamie Dimon,

British Prime Minister David Cameron, etc. And we saw Justice Roberts alter his judicial opposition to Obamacare, a startling development.

And in fact there never were “mass” arrests. There have been arrests of bankers, even reaching the hundreds, but not mass arrests as were being discussed up to that time.

Subsequently, Commander Ashtar of the Ashtar Command gave us more background into the phenomenon on a later An Hour with an Angel.

Steve Beckow: What are the criteria for containment, Ashtar?

Ashtar: The criteria for containment are that you need to be in a situation where you can inflict pain, suffering, that your actions have been so abhorrent, and that you are not trying or accepting the energy that is being sent to the Earth and to all the human beings.

But primarily it is not that you are a minor player. It is those who are in positions of, what we would say, significant authority, some known, some unknown; that those are the people that are the primary candidates for containment.

The rest are being worked with, as you know — but perhaps not everyone does — but they are being worked with in a variety of other ways, or what we could say, perhaps lesser containment.

But what we refer to when we use the term “containment” is what Archangel Michael refers to as the light box, for lack of a better metaphor.

SB: I understand that Bashar al-Assad is not in containment. And I think when listeners heard that, they might have said, for instance, he fits the criteria that you’ve outlined.

Can you use the example of Bashar al-Assad to help us understand more?

A: Well, in fact he is in containment now.

SB: He is in containment. All right.

A: Because, do not forget, everyone is not put in containment in an instantaneous moment. They are worked with, they are worked with, they are worked with, and then when there is simply no sign of shift, then they are placed — for the good of the collective. Think of it that way. ...

SB: Thank you. I know a lot of people are wondering how speedily containment is progressing, whether it’s proving to be a practice that is bringing the atrocious

acts of some people to a halt on the planet. I think generally we're all concerned about the speed with which things are happening. Can you tell us something about the progress of containment?

A: Containment is actually going very rapidly. And it has been speeded up, in terms of what you would think of as rapidity and what we think of as rapidity. We have moved to what you would think of maybe as the second level. Most of the largest offenders, let us put it that way — those who simply do not wish to change — have been contained in the cylinders, the light boxes, and we are now working on what you would think of as the second tier. And we would suspect that this would be actually completed as close as the end of your week.

So the changes that are taking place and that you will witness in terms of societal change and political change and financial change [are] actually very close and very rapid. (16)

By October of last year the entire Illuminati leadership was in containment.

Steve Beckow: And I would assume that the entire organization called the Bilderberger and the Trilateral Commission and Council on Foreign Relations are all under containment. Is that correct?

Archangel Michael: That is correct. (17)

Consequently they are shifting. "Those who have been in containment," Archangel Michael said, "from full containment to what we call very light containment, are being penetrated and their hearts are shifting and opening." (18)

And on Jan. 21, he explained that "those in containment ... are still in containment; and ... are having a change of heart." (19)

So except for pockets in the Middle East, the world is moving inexorably towards peace.

Let's hear from SaLuSa on the subject of world peace next.

Chapter 4. Achieving World Peace – Part 2

SaLuSa

As far back as 2010, SaLuSa reassured us that “war has absolutely no place in the future, and for that reason there will be no need for defensive employment.” (1)

In February of 2012, SaLuSa informed us that that the Divine had decreed that war end on the planet with the end of duality.

“It is a Divine Decree that your cycle of duality ends with war having been totally eradicated, and peace having been firmly established. For too long your rights have been taken away, and the time has been reached for them to be totally restored. The old paradigm is now defunct, and will draw no more energy to sustain it any longer. A new day has commenced that will bloom into its magnificence with Ascension.” (2)

In March of 2012 he promised us that peace would soon arrive on the planet.

“That elusive peace you sought for eons of time is soon to be yours, and all forms of aggression will also be denied to those who would ignore the Divine Decree. Those souls who still harbor thoughts of this kind, will find that their vibrations are such that they will not be allowed to enter the higher vibrations of the ascended.” (3)

In April of 2012, SaLuSa refers to an expansion in the role of the galactics to ensure that peace arrives on Earth. There is still the allowance for testing nuclear weapons but not for their use in aggression.

“Our mission has recently changed from passive roles to ones that directly engage the dark forces, and we are enforcing the edict given to your military authorities that the use of nuclear weapons is not going to be allowed. We are paving the way for a declaration of world peace, from which point the use of any weaponry will be banned.” (4)

He described the steps the galactics were now allowed to take.

“Already the different countries and their governments have been made to understand that aggression must stop, and that we are authorized to take whatever steps are necessary to ensure there is peace.

“Hitherto, our intervention on your behalf was curtailed for karmic reasons, but now by Divine decree we are able to enforce the plan for your spiritual evolution.

“You will find that suddenly progress has leapt forward, and that has taken the dark Ones by surprise who never allowed for such a turn around. We are pressing ahead and know that it is now the turn of the Light to take charge, and commence to set up a society that can express its freedom to create a new peaceful way forward.” (5)

He asked us if we could sense the changes around us.

“Can you feel the changes around you as the energies continue to rise up, and will continue all the way to Ascension. They are bringing a peace to Earth and your civilization, one that will see many more souls lifting up into the Light. It will have the affect of calming situations that are leading to an aggressive response.” (6)

By May of 2012, SaLuSa was observing that “there are still Leaders and Dictators that talk of war, and those of the last cabal are still desirous of spreading misery and death. However, talking is all they will be allowed to do, as we can support you in your quest for peace and put a stop to any attempt to do otherwise.” (7)

He predicted that troops would return home when peace arrives and that those guilty of war crimes would receive justice.

“Peace is nearly here, and when it causes all military units to be disbanded there are provisions made for the re-employment of all personnel. War crimes will be dealt with along with all crimes against Humanity and just no one will get away with them, as we know who the guilty ones are. There are no reprisals involved, but the simple application of your laws and also Universal Law.” (8)

By June 2012, he was telling that that the last vestiges of violence and vengeance were all that remained that that these were being cleansed from the world, he says.

“The Light upon Earth increases and the path to Ascension becomes stronger.

“It is quickly bringing peace to a troubled world that would otherwise be in complete turmoil. Where there are trouble spots you are seeing the last vestiges of

the effect of centuries of negative vibrations. It takes time to remove them but you are winning the battle.

“There is far more love being sent to them than ever before, and it is helping to cleanse such areas. It will be completed when total peace comes to the Earth, and we will carry out the final cleansing.” (9)

By Oct. 2012, he was telling us that the direction the world was headed in was more clearly revealed as each week passed. “From hereon each week that passes should reveal where matters are heading, and there will be the fulfillment of events that are necessary to bring peace to your world.” (10)

He reminded us that the galactics know who is behind efforts to foment war.

“As you would imagine, nothing happens that we are not aware of even if it is out of our sight. We know the true intent of the different nations regardless of what they say to the outer world. They are in fact divided into those who encourage war, and those who now seek peace even if their history suggests otherwise.” (11)

By Dec. 2012 he observed that “peace is coming to Earth very soon.” He informs us that:

“It was offered to your leaders many, many years ago but rejected. Now it comes to you as a permanent peace, not dependent on countries signing agreements. It is God's peace and Love that you have earned by rising above the lower vibrations, and for those souls of Love able to be present in the higher dimensions.” (12)

On Dec. 28, 2012, he predicted that “you will shortly notice a wave of love sweep the Earth, that will show that your civilization has taken a quantum leap forward.” This interim event in consciousness “will help the establishment of world peace.” (13) Others have also predicted this wave of love that will sweep the planet. (14)

And by Feb. 8, 2013, he was telling us that he encourages us to see “just how near you are to getting a peaceful solution, which would allow peace to descend on Earth.” He told us lightworkers that “peace is not that hard to bring about, and we wish you would put your heart and soul into it, then matters would really take off.” (15)

The celestials and galactics are doing the heavy lifting in bringing peace to Earth but there is an important role for us to play. As stewards of Gaia it's up to us to hold peace conferences and to “put [our] heart and soul into it,” as SaLuSa requests. This blog can point the direction but there are too few of us to actually host peace conferences. We rely on others to hear what the Company of Heaven is saying and take the journey to peace that next and last step. Is it you who has that mission? Or you? Or you?

Let's now hear from some of Earth's ascended masters: Matthew Ward, Saul and Jesus.

Chapter 5. Achieving World Peace – Part 3

Let's add what terrestrial ascended masters Matthew Ward, Saul and Jesus say on achieving world peace to what Archangel Michael and SaLuSa have said.

Matthew Ward

Matthew warned us back in 2007 that, as regards “the onset of the Golden Age, not all of its glories are sitting on its doorstep, so to say.” (1) Entry into the Golden Age would not mean the instant descent of peace on the planet. And he's been proven right.

In 2008 he predicted that “the higher energies engulfing the planet cannot be weakened much less halted, and these energies are awakening minds to search for truth and opening hearts to actively work for peace for all humankind and respect for all life.” (2)

In October of 2012, Matthew described the gradual shift to peace that would follow our entry into Fourth Dimensionality at the end of that year.

“Despite [the cabals’] ability to delay major progress of reforms, Earth with her vanguard of lighted souls has continued moving apace toward fourth density. With the countdown now measured in only weeks, before long you shall see current upheavals and conflicts start evolving into a unified desire for a world at peace and the onset of Earth’s Golden Age.” (3)

Having told us that Dec. 22 would be a day much like every other and having been proven accurate, he asked us in his most recent message not to succumb to our disappointment: “What comes next is exceedingly fulfilling and gratifying—restoring to Earth and all her residents peace, health and harmony. You mustn’t ‘fall down on the job’ by letting disillusionment dim your light!” (4)

So it's time to revive ourselves and get down to business - the business of creating a world at peace. Matthew explains that only when the collective consciousness reflects our avid desire for world peace will this condition arise. "Only when the collective consciousness reflects the intense desire and determination of a civilization to live in unity and harmony instead of divisiveness and killing can this come about." (5)

He described the spiralling down of consciousness that followed the introduction of darkness into our world and reminded us that we've come to lift Earth out of this dark condition.

"After darkness entered this universe and the collective consciousness of some civilizations spiraled downward, only through one self-destructive era after another has a third density world been able to shake loose from its dark mooring and embark upon the pathway to peaceful, cooperative living. You all came to help pave that pathway on Earth and usher in a new, different era, the Golden Age." (6)

Now, he says, "the day of dictators is over and so is the day of supporting those dictators for self-serving reasons." (Matthew's Message, March 25, 2011.) Just as SaLuSa did, he reassured us that war would end incrementally and soldiers would return to their homes.

"All warring will end incrementally and troops in foreign countries, whether in combat, occupation forces or simply because military bases exist, will return to their own countries." (7)

Saul

Early in 2012, Saul predicted that "the way that humans experience life is due to change dramatically for the better in the very near future." (8) He offered a detailed description of the expected shift.

"As the year progresses and the higher vibrations are dominant peace will descend upon Earth. Already there are noticeable changes in the mass consciousness levels that can be registered by us, and more souls than ever are being lifted up." (9)

Whether peace has descended on Earth as of the end of 2012 is a matter of interpretation. No major wars between nations have broken out but stubborn civil war continues to tear Syria apart. Saul describes the faults in our belief systems that support war.

"For eons, conflict, distrust, and betrayal have been the standard modes of behavior for the vast majority of those living on Planet Earth, and for that majority it is almost impossible to conceive of any other way because it appears to

be standard and normal, and to actually trust anyone would seem to invite betrayal and would therefore be insane.

“Instead of trusting, you invest in defense, believing that that is the most effective way to ensure your safety, and from there you come to the next logical conclusion, namely, that the best form of defense is attack. Wars are started and suffering is your constant companion.

“Guides and teachers have been constantly pointing out to you the fallacy of this belief system for a very long time. Now, at last, their wisdom is being heard and understood by enough of you to enable great changes in the ways that you interact and communicate with each other – whether within families or nation to nation – to be put into operation for the benefit of all on the planet.” (10)

After 21/12/12. he said that “the new energies which ushered in the New Age are affecting all on the planet.” (11)

“They are opening up a new sense of awareness that is replacing the once-blinding cloak of insensitivity within which most have been living, as they soldiered on through the daily struggles and problems with which the illusion presented them. They are now opening to the awareness that life can and should be a far better experience than most people are having.

“That awareness is building the necessary motivation within them to do something to change their lives, to make them more meaningful, to live them peacefully and harmoniously by making them lives of loving service, instead of states of enslavement ruled by circumstances over which they seemingly have no control.” (12)

People are now less willing to follow the authorities and more willing to follow their own hearts.

“The willingness to just do what the authority figures in their lives – governments, employers, religions, even friends and relatives, who have sought and often obtained unquestioning obedience from them – tell them to do is falling away, as they recognize and honor the right and responsibility to make their own decisions about how to live, and whether or not to obey orders or follow instructions from those who claim positions of authority over them.” (13)

He predicted that “peaceful demonstrations will grow in number as the old order dithers, confused and frightened, as it tries to maintain its position of power and entitlement.”

(14) It will become obvious to the planet's former controllers that their situation is now untenable, he said.

“It is obvious to even the most unaware that the present state of affairs is untenable. Only those who have ruled, and are continuing to try to do so, are in denial about their inability to maintain their positions of power and control.

“The New Age has arrived, and the old established order is peacefully (for the most part) crumbling, as the overall support it once enjoyed falls away. New people with new ideas and compassionate hearts are coming forward to replace those who have been running the broken and unworkable systems of government that have caused so much damage – going to war, for instance – in their insane determination to remain in power.” (16)

He describes how the populace is awakening.

“[The authorities] have no power; they never had. But humanity chose to raise individuals up as heroes and leaders and then gave away their power to them.

“No longer. It was a mad offering on the part of the misguided to the insane that is now being rescinded. The peoples of the world have realized that no one has the right to control or repress them, and they are no longer willing to submit themselves to the authority of those who have consistently abused the positions of trust that they held.” (17)

He predicted that those who try to remain in power will be abandoned by their minions.

“As the old system collapses there will obviously be some violence as the once powerful attempt to maintain their authority. But those who enforce it for them are also realizing the complete unacceptability of the old ways.

“They have worries, because they earn their livelihood by serving the system, but the divine energy field is leaving no one unaffected and unable to see the damage that has been, and still is being, caused by authoritarian systems of government, and they mostly no longer wish to be part of the dishonesty and corruption which have enabled them.” (18)

He advised us to focus on the loving energies arising within us if we wish to bring peace to the world.

“Focus on the loving energies that are arising within you. Share them freely, and know that you are ready to release your fears and anxieties as you move forwards

to take your places in the cooperative and harmonious world that you are building to replace the one that has so miserably failed you.

“The new energies are flowing through you powerfully and abundantly, so avail of them by embracing them and learning to use them. They are a divine gift, given to you so that you can reconnect with Yourself, recognize who You really are, and open into the perpetual joy and wonder of that divine state.” (19)

Finally let's listen to what Jesus has said about bringing peace to the world.

Jesus

Jesus attributed the drive towards world peace to the rapid evolution of those on the planet who've opened to the light.

“Humanity is evolving spiritually, and the rate of that evolution has increased enormously during the last fifty or sixty years, which is why you now see so many — not ego-driven but loving beings — actively involved in bringing peace and harmony to the planet as they strive to raise humanity's awareness of the insanity of the old ways.” (20)

Jesus spoke directly to starseeds, revealing how they had entered physicality to bring peace to the world.

“And when you use those peaceful states with loving intent, you not only correct your own imbalances, but you also assist humanity as a whole to move back into alignment. You entered physicality to do this, and you are exceptionally well

suiting for the task that you have undertaken because you never completely lost your sense, your awareness of your true divine nature.

“Yes, your growing years did impose blocks or screens on your awareness as you learnt to fit into the cultural environment into which you incarnated, but always you retained a sense, an intuitive understanding of your divine essence which is absolutely indispensable if you are to carry out your holy task. It was also necessary to undergo as fully as possible the enculturation through which all humans pass as they grow and develop, so that you could fully understand what they had to overcome or shed in order to awaken.” (21)

He explained to us what our parts were as lightholders and lightworkers.

“Here on Earth, as you play your parts as Light-bearers and wayshowers, the field of divine Love is having ever greater effects on all sentient beings because your Father wants you all to wake up. This period in your spiritual evolution is not a random or chance event, where a momentary surge in the creative energy field that contains all that exists has temporarily engulfed your planet.

“This energy field is eternally expanding as creation itself expands. There is nothing outside it because it contains all that exists, but – using an analogy to give you a picture with which you can resonate – Earth, which was in its outer reaches, is effectively being drawn in nearer to its center where its power and strength are less easily ignored.

“This was planned eons ago and is occurring precisely on schedule to help humanity awaken from the nightmare of separation and abandonment in which it seems to have been enclosed, unaware of anything but this illusory realm of pain, suffering, and finally death.” (22)

Some authoritarianism remains, he said.

“Nevertheless, the energy of the old ways still maintains its hold on those who have bought into authoritarian attitudes as a way to feel secure, and the results of that are apparent in areas where the authorities continue to maintain order by means of enforcement.” (23)

But this barrier will be dissolved by the love of lightworkers and lightholders.

“You, the Light-holders and wayshowers, are changing that by extending outwards from yourselves the ever-intensifying, divine field of Love, into which

you are permanently integrated and anchored, and by intending to share it with all of humanity.

“You have been doing this for most of your present earth life time, ever since you awoke to the reality of your essential spiritual nature and became aware that your reason for being embodied was to assist in this massive task of bringing all of your brothers and sisters home to their natural state of living consciously in peace, harmony, and abundance.” (25)

The forces of darkness can never win, he says. It’s the Divine Plan that love will triumph

“The intent for that state is spreading through your collective consciousness and will not be denied, despite the efforts of those who would maintain the old structures that have been dividing you and setting you against one another for so long. Their time is past, and their power structures are crumbling though poor maintenance and lack of support. Love is sweeping across the planet and melting all resistance.

“Know that this is so, that it is the divine plan, that it cannot fail, and continue to focus on the Light within you so that it blazes out more and more enticingly to induce all with whom you interact by thought, word, or physical presence to go within and find their own Light blazing there and intending to be seen and shared. You are divinely supported in every moment, and your Father’s Will for Love to prevail, which is also yours, will not be denied.” (26)

Summary

Therefore in large measure, the war with the cabal is over. All the decision-makers among the Illuminati are in containment and their forward momentum has been stopped. Pockets of vengeful feelings remain among people, primarily in the Middle East, which will continue to smolder for a time. By Divine Decree, all war is destined to end on the planet and all military personnel are to return to their own countries. The galactics are now enabled to take an active role in suppressing conflict whereas before they were restricted to a passive role for karmic reasons. The coming of peace will be aided by a wave of love expected to sweep the Earth soon.

It's time to revive ourselves from our disappointment at not finding ourselves fully anchored on the Fifth Dimension on 21/12/12 and assume our roles in building Nova Earth. The old order is crumbling daily and will not revive itself. Instead people with new ideas and compassionate hearts are coming forward to take their places and build a New Earth in a Golden Age for the planet.

Chapter 6. Creating Good Government - Part 1

We've looked at the restoration of our rights and freedoms and the expected achievement of peace in the world. The next part of the work we'll accomplish in the process of building Nova Earth is the creation of new and honest governments to take the place of the old and corrupted administrations around the world.

Many sources discuss this matter so let's listen to them describe what's wrong with world governments. What's Wrong with Our Governments?

What's Wrong with Our Governments?

On Dec. 28, 2012, SaLuSa predicted an early replacement of the current governments of the world. "Your present governments along with others largely in your Western World are near to being replaced," he said, "and it is an important move that will enable so many other things to go forward." (1)

Last March (2012), Archangel Michael, speaking through Celia Fenn, predicted their demise:

“The new multi-dimensional Earth is taking shape and the 'old' energies of conflict and duality will have little importance in the Future that is being manifested.

“The frequency of duality and conflict belongs to the old third-dimensional world, and it is fading away. The new fifth-dimensional Earth is based on flow and harmony, and the shifting of polarities into unity.” (2)

Let's look at the ways in which the old regime failed to deliver good government.

SaLuSa tells us that "the serving of self [in these old governments] has grown to endemic proportions, and financial control and accountability [are] practically non-existent." (3) The old governments "cannot handle the present crisis brought about by the collapse of a number of banks, and the corrupt systems used by them to bolster their own profits through false trading." (4)

He explains that "your representatives are not keeping to their oath. The problem is that corruption and greed spreads like a cancer and before long is accepted as a normal way of working." (5)

"Most governments throughout the world stopped serving the people a long time ago, and allowed themselves to become vassals of the powerful banking families. They also must be removed from power plus their largely ill gotten gains, and also their minions who are to be found all over the world. The extent of the Illuminati power will astonish you, and it reaches into the most high places including royalty and religion." (6)

He tells us that government funds go to pay for black operations, many of them aimed at the people.

"On a larger scale your money is siphoned off to fund black operations that have not been authorized by your government, and are often directed at you the people they should be serving. These situations have been going on unchecked for far too long, and with our allies who have our help we have made it clear we are going to put a stop to them." (7)

Matthew Ward explained that their only concern was to "cling to their remnants of influence and vast fortunes." (2) He accused them of "blatant lying" which was made worse by "people's polarized views about what best serves their personal interests." (8) He relates how they held onto power for so long by dividing and conquering.

"Divisiveness has long been an effective tool of the dark ones. Not content to divide the peoples only through religions, they have separated you into other conflicting camps by attaching labels to social strata, ideologies and philosophies, types of governing and political parties, and by labeling as a 'conspiracy theorist' anyone who disputes official claims about any situation or event." (9)

Saul tells us that "it is apparent that the majority of politicians have no real interest in engaging meaningfully with their constituents on these matters, and when interviewed or

questioned, they do their best to dissemble and evade.” (10) He gives examples of what he’s referring to:

“Many of you are well aware that there is no need or excuse for poverty, starvation, or lack of education and health-care anywhere in the modern world. The only reason that these problems are still present is because of the greed and corruption of the few who have taken it on themselves to control and exploit the planet and the majority of its people for their own personal aggrandizement and glorification.” (11)

Saul tells us that governments can no longer hide behind the facade of providing services to people when they provide none. The rapid communication of the Internet is exposing their deficiencies.

“In the newly arrived age of instant communication and information transfer, it is no longer possible for those in positions of power and authority to operate with impunity as they take decisions that affect everyone but benefit only a very few. Big governments, and the resultant wastage and corruption that they cause, are in a massive state of disintegration and collapse.

“Accountability is being demanded, and because of the explosion in the disclosures of secret government and corporate documentation, which previously had prevented you from knowing what was truly occurring, this will no longer be avoided.” (12)

This then is the type of government that we’re leaving behind us as we exit the Third Dimension, transit the Fourth enroute to the Fifth. In the next article we’ll look at some of the approaches that are on the horizon for these unworkable conditions.

Chapter 7. Creating Good Governments - Part 2

The Mobilization of the People

Saul tells us that “the world of politics is in the process of enormous change, as voters, disenchanted with their representatives’ refusal to represent them, start to communicate with one another to resolve issues, leaving those elected officials confused and frightened as they realize that the times of smiling and collecting donations is rapidly coming to an end.” (1)

The rising energies of love on the planet are awakening the people and causing them to open their hearts and join together to effect change, he tells us.

Tahrir Square

“This softening [that the rising energies are bringing] brings with it light, openness, and a willingness to listen, hear, understand, and cooperate with others who profess philosophies, cultures, ethnicities, and values that differ from your own. It gives you the interest and the motivation to look for meeting-points within them, where you can communicate meaningfully and share your experiences for the benefit of all.

“This ability to communicate with people of different races, nations, cultures, and religious beliefs is of course very recent, but it is being grasped most

enthusiastically all over the world. And the resulting communications are showing you that people everywhere have the same basic needs and desires – they do not want war! – and that mostly your politicians have a totally different perspective on what is important.” (2)

The Galactics Have the Answers

At the same time, our star brothers and sisters have come to the planet to mentor us in the ways of peace and harmony. SaLuSa speaks for them when he says that “the answers are already known to us, and the new ways are prepared and ready for implementation at very short notice.” (3)

They need “the opportunity to address you directly and with the approval of your Leaders. Rest assured that they are well aware of our existence, and that we have been in contact with them for many years. The time for rejecting the peace that we bring to you is over, and they must set aside any prejudice or political ambitions.” (4)

The truth, Ker-On of Venus advises us, “is that very few governments have the answer or ability to deal with your present worldly problems.”

“They muddle through governance in the old ways that do not reflect the new age, that is pressing hard to overcome the adversity and manmade problems that are holding you back. Even with good will and intent, your institutions have little idea as to how to move out of what is soon to be an impasse. The size of the problem grows day by day, and the old structures crumble under the weight of them.

“The answers lie with us and the divine plan for your release from the thralldom and control of the dark forces. Time passes faster than ever, and we approach that magical date when we will be allowed to take a big hand in your destiny. It was never intended that you would be indefinitely subjected to your present conditions, and we are excited at the prospect of bringing an end to this cycle of duality.” (5)

“The need for governmental changes is being accepted,” SaLuSa explains. “Your new representatives,” he says, will “put your needs first and foremost.” (6)

“The Governmental changes are obviously vital to allow a more spiritual representation amongst those who will lead you. Instead of putting self first they will honor their oath to serve you, and will be chosen for that reason.” (7)

Matthew Ward offered us a picture in March of 2012 of how new governance would come into being.

“Within the months ahead, governmental shake-ups will weed out Illuminati members or those acting under their control, and persons with moral and spiritual integrity will step in. The nascent governments born in the ‘Arab Spring’ will become stabilized and tyrannical regimes will fall.” (8)

SaLuSa described the weeding out process that we can expect to see.

“Now that the sorting out of people who are not fit to serve you has begun, it will extend to all areas of life. Politicians are by and large unreliable and prone to break their oath to serve you the people. They are already under scrutiny and will soon be subject to removal where they have committed criminal acts. Provisional governments will be put in place where necessary, and control will be given to those who have proved worthy of such responsibility.

“We do not expect much resistance to the changes, as we have the absolute proof we need to go ahead and there can be no argument about it. If necessary, we can go back in time to prove a point, so you will realise why we can be so confident. It means that we do not have to resort to force to accomplish our goals.” (9)

Matthew acknowledged our difficulty in imagining what changes would take place and he agreed that they would not come without some dislocation: "Not only is it difficult for you to imagine systems dramatically different from what you are accustomed to, but in reforms of the magnitude required, it is realistic to anticipate confusion and foment." (10)

New Leaders Ready

The starseeds and lightworkers who are destined to serve the people in the new governments are already here, Matthew told us back in 2007. “During the past decade or two some souls have come in with the advanced spiritual clarity and ancient wisdom that will naturally put them in leadership roles.” (11) Many of them have been preparing over many lifetimes for their role in our Golden Age, Matthew tells us.

“Please know that trustworthy souls with spiritual integrity and expertise in the various fields of governing are ready to take the helm and bring order as rapidly as possible as corrupt, tyrannical government leaders are unseated. A great deal of ‘shuffling’ in the United States government will lead to ending its engagement in war and internal and international strife, and the unseating of other self-serving heads of state will end civil wars, genocide and longstanding conflict.

“Many wise and able leaders in previous Earth lifetimes chose to return to the planet to complete their groundwork for this unique time at hand, and others are members of your ‘space family’ - many are your ancestors - who volunteered to

assist during this transitional period. In no way are they there to 'take over,' but rather they came in response to your thoughts, feelings and actions for peace, fairness and stability in your world.” (12)

“Clearly you need the right type of people leading the way forward,” SaLuSa says, people “who have the foresight and understanding to take you into the New Age.” (13)

An obvious example of this kind of leader is Barack Obama, he tells us.

“The US Government will still have Barack Obama amongst those retained because, as we have stressed many times, he is a great soul of the Light. He is already taking actions that will aid our allies in bringing the Cabal to answer for their crimes.” (14)

“We need honest and trustworthy people in positions of power,” he tells us on another occasion. “Hence, after the dark Ones are removed, we will support such appointments as we need them to get fully behind the changes. As a result you will be propelled into a new era when your rights will be restored, and power returned to the people.” (15)

Eventually, he predicts, “all unjust laws and policies will be struck down.” (16) “In the future you will become more involved in the decision making and consulted before action is taken,” SaLuSa assures us. (17) “The transformation at hand is your desire and soul level vision,” Matthew explains; “if this were not so, it could not happen.” (18)

Earth Councils

Some forms of government will be unlike any we’ve had before. Some may be the same, but the way they’ll be run will be altogether different.

Archangel Michael described the councils that would direct our affairs in the Golden Age.

“Yes, Beloved Family of Light, after 2012 and the Earth's Passage through the Portal of Light in December, the Earth will be entrusted to the keeping of those of you who are chosen and elected to the first New Earth Council of Earth Keepers and its associated Council of Elders.

“These Beings will be initiated into the 8th and 9th Dimensions where they will work with the Solar Councils and the Galactic Councils of Light. At last, Earth will take its place as a 'star of Light,' whose evolutionary path is determined by

Divine Will and Divine Creative Intelligence, and those who follow the Divine Will.

“Those in your Earth society who are advanced seek to bring polarities into unity through dialogue and discussion. This is the way of the New Earth and it will become the predominant mode of political life in an awakened fifth-dimensional Earth. “ (19)

He described the Earth-Keepers and Elders who will determine the future path of Earth, leaders of destiny's path whom even Fifth-Dimensional beings are not readily familiar with.

“The real power to determine the future path of the Earth is passing into the hands of the Earth Keeper Council and the Council of Elders. These ones are called and chosen in the higher dimensions and they have access to the Solar and Galactic Councils.

“They are not 'obvious' to those in fifth-dimensional society, but they are those who are multi-dimensional and can access Higher Consciousness and create and manifest according to Divine Will as it is expressed in your Golden Rose Galaxy that is birthing and forming now. ...

“These are ‘elected’ by their soul communities on the higher level for their wisdom, commitment and courage.” (20)

Once these changes have taken place, Earth will be able to assume her new role in the universe, he says.

“With these structures in place, Earth ascends into her new 'orbit' as the Blue Star Planet, the first planet within the Galaxy to achieve full multi-dimensional status and to be governed by a Council of Earth Keepers and Elders.” (21)

He ends by telling us about the excitement that's being generated as these new structure arise.

“Indeed, Beloved Ones, there is much excitement as these new structures are put in place and connected with the New Earth grids. We know many of you have thought that the Beings of Light would come down to the Earth, but we say that it is you who will ascend to meet with the Beings of Light in the Solar and Galactic Councils and take your place as part of the Golden Galaxy.” (22)

So that's what is being said about the fall of the old political order and the rise of the new. The old order is disintegrating and will be replaced by new leaders who have spent

lifetimes preparing for this assignment. Unjust laws will be removed from the statute books and civil rights restored. The new governments will be led by an Earth council some of whose enlightened members may sit on solar and galactic councils as we move deeper and rise higher in our Golden Age.

Chapter 8. The Enabling Factor of the New Economy

The old global economy is moribund and, in my opinion, will never be resuscitated. It was an instrument of the Illuminati, designed to concentrate wealth in the hands of fewer and fewer people and is being taken down by the Company of Heaven, comprised of the ascended masters, both from Earth and from other ascended planets in the universe, here to help us with our Ascension, and the celestials.

Archangel Michael through Celia Fenn suggested how we've made ourselves slaves to money.

“It has been a powerful illusion that ‘money’ is what creates security, and, Beloved Ones, you have worked hard to free yourselves from that illusion and to see that it is the Flow of Divine Love and Abundance that sustains your needs and that money is merely a symbol of exchange in this process.

“But that symbol of exchange was manipulated to become so powerful that it was able to imprison you in a belief that you were slaves of this method of exchange and that you needed to trade your lives to gain enough to survive.” (1)

The celestial sources speaking through Patricia Diane Cota-Robles introduce the new economy that is waiting in the wings.

“For aeons of time, our monetary system has been used to manipulate, control, dominate, and abuse the peoples of the world. ...

“[But] too many people have awakened, and as a result of this monumental shift of consciousness, the Light of God has reclaimed this Earth. ...

“Fortunately, there are also people in positions of power who are very aware of what is taking place. These enlightened souls are co-creating a new monetary system. This system will be based in integrity, generosity, fairness, compassion, and the highest good for all concerned.” (2)

I'll look at the new economy briefly here, simply to allow us to factor it into our overview of the pillars of the new society that will grow exponentially as we progress into the

Golden Age of Gaia. But I don't examine it as an area in which I foresee lightworkers concentrating their work at this time. Perhaps later lightworkers will work in administering the new economy but for now it is being organized behind the scenes.

I regard the new economy as an enabler of lightworker action in the areas of restoring freedom, achieving peace, and co-creating good government.

This book is about the areas of global endeavor where lightworkers are intended to initiate and participate and the global economy is an area that's being more or less managed behind the scenes for the moment by the Company of Heaven and its Earth allies.

Those people who don't know about the new economy may find themselves trying to give CPR to a dead patient. Even the existence of a derivatives crisis and the impact of the computer on the job market is probably enough to finish this economy off.

The total debt for derivatives in the world is estimated at \$200,000 for every man, woman and child on the planet and can never be repaid. The computer has turned the job market into a buyer's market, eliminated entry-level jobs, allowed employers to eliminate most benefits plans, ship jobs to low-cost markets of the world, etc.

These two circumstances alone, together with the Illuminati intention to enslave workers, condemns the old economy to fall.

The new economy, often referred to as the abundance program or by the initials of the American act which embodied it - NESARA - will see all citizens of the globe taken care of financially.

NESARA stands for the National Economic Security and Reformation Act. Its history and provisions can be read in the sources in footnote 3.

Saul reassures us that all who are destitute will receive immediate assistance.

“Those who are destitute, in poverty, homeless, diseased, or suffering in any way will immediately have their circumstances improved in a fashion that is way beyond anything you can presently foresee, because there are advanced technologies prepared and available to clean and heal the planet and all who live on her that will be put into action as soon as the old order has crumbled. Every conceivable disruption that the could occur as a result of the old order collapsing has been taken into account; nothing is being left to chance.” (4)

Matthew Ward tells us that the changes will include all the people of Earth:

“Readers living outside the United States want to know how their own countries will fare. They decry their leaders’ actions that are against their countries’ constitutions; or despair at prevailing conditions of poverty, disease and starvation; or express grave concern about the plight of the masses of refugees; or ask when their despotic rulers will be replaced. To these dear souls, I say [that] benevolent changes are coming throughout the world.” (5)

He relates that what happens in America is important, but “foment leading to benevolent changes in other countries’ governments is of paramount significance too.”

“The myriad reforms underway span the globe—WORLD transformation is what is occurring—and in time, every leader in every nation will be a lighted soul.” (6)

In 2010, Saul, speaking through John Smallman, painted as full a portrait of the changes that abundance would bring in as anyone has. He began by revealing that the new monetary system “has been carefully designed to provide long-term stability instead of short-term distortion.”

Then, true global cooperation of a completely harmonious nature, and that is good for all and good for the planet, will be possible and will come into operation.” (7)

As economic stability returns, Saul says, “safety valves will be installed to ensure that the liquidity of the financial system can no longer be threatened or drained away by unseen or unexpected leaks. Investment in necessary, environmentally sound industries will grow, while unsustainable and damaging industries will wind down and then cease operations.” (8)

“World poverty will be completely alleviated as everyone’s energy and food needs become available in abundance locally, removing the need for much of the major freight transportation worldwide. The speed with which your damaged environment will be restored and healed will amaze you.

“As peaceful, intelligent, and harmonious cooperation in all areas of your lives replace the stressful, competitive, and confrontational disharmony that has been standard on the planet for so long, personal stress and anxiety will dissolve, leading to an enormous reduction in sickness and ill health. (9)

Saul provides a rare glimpse into the social impact of prosperity. He advises us that unhealthy lifestyles and addictions will fall away.

“Unhealthy life styles will fall away as you all start to find joy, peace, and love in every moment of your existence, and this will remove the need for escape from

the constant pressure of survival issues with which so many of you are presently struggling.

“One of the results of these life style changes will be an astonishing falloff in addictive behavior of every kind — drugs, alcohol, food, anger, abuse, and all other forms of depraved behavior such as manipulation, control, blame, shame, and bullying of others — to be replaced by large-scale acceptance of one another as beings to be honored, respected, and cherished.” (10)

Crime will fall and with it the need for much policing.

“The need for enforcement agencies will be gone, because when people respect and accept one another as equally valid and worthwhile members of society, the misbehavior that enforcement agencies have been used to stop and prevent will no longer be a major issue. Peaceful, friendly, and enthusiastic cooperation will replace the legally enforced organization, manipulation, and control of people everywhere.

“This sea change in the attitudes and beliefs that humanity holds and expresses is the guiding wisdom that will bring you firmly, positively, and excitedly into the Golden Age for which you have been hoping for so long.” (11)

This new abundance will be accompanied by the release of new technology which is largely beyond imagination. Says the Spiritual Hierarchy and Galactic Federation speaking through Sheldan Nidle:

“New ‘miracle’ technologies will give each household the ability to provide its own food, clothing, and furniture. This eliminates the need for farms, factories, and other staples of your present economy.

“A slosh of wonderful new technologies is to transform how your society operates. Your cities and suburbs will be rebuilt. Vast greenbelts will replace your farms and factories, giving a miraculous face-lift to your environment! This will be the prelude to the announcements that end the cover-up of our benevolent existence.” (12)

“This new abundant realm [created by NESARA] is merely the ‘baby-steps’ for the events that form the prelude to first contact. Among these are many disclosures of long-suppressed technologies. These can greatly reduce pollution; cast you into a new computer age; and end your reliance on fossil-fuel propulsion systems.” (13)

Is NESARA permanent? No. It's planned to be a temporary measure. Says the SHGF, "even these unprecedented reforms merely constitute a transitional phase that can facilitate the advent of first contact." (14)

After full Ascension, this planet is destined to be weaned from the use of money, as SaLuSa points out: "Ultimately you [will] reach a stage where money has no place in a society that is founded upon sharing." (15) Matthew confirms that the time will come after Ascension to drop the use of money:

"In Earth's Golden Age, the trend will be away from money and toward systems of sharing and bartering—the light intensity in souls will let those means of remuneration for services and conduct of commerce become as satisfying between nations as between individuals." (16)

No matter how eager we are to know when NESARA will arrive, the Company of Heaven will not give a date. They offer us hints, glimpses, and suggestions but that's all.

The latest reference came from SaLuSa on Feb. 1, 2013:

"We are naturally aware of the ever growing demand for the Prosperity funds to be issued, the announcement of Disclosure and the bringing about of peace. Be assured they will be satisfied before long, and arrangements are well advanced. Your joy and happiness will abound in due course as deep down you know that you are already victorious.

"For you time has speeded up yet in some ways it also seems to be dragging its feet, and you start to become anxious or impatient. Please keep your eyes firmly on the future, and remember that most of you are in an advantaged position to know more certainly of what is taking place." (17)

This then is the destiny of the world under the abundance program often known as NESARA. No one knows when it will be introduced. In all likelihood it will be soon but it has been expected for years. It would not be advisable to be financially reckless thinking that global prosperity is coming. It probably would be best to continue being financially prudent until it comes.
